Introduction

When I first learned of Geoengineering of the weather by aeroplanes was in 2005. No one had ever heard of chemtrails much less could even consider that the weather was being engineered from above.

Truth is that we destroyed our natural ecosystem of weather some 30 years ago and have been “rain makers” since then when the heavy coal ash destroyed nature's natural rain producing abilities. These are what nuclear power plants and WSAC (Wet Surface Air Coolers) are for...to produce water vaporization up into the skies and literally create rain and then steer the rain with the aluminum and ground based radio based frequency radar. The use invisible drones now to seed the skies and then use laser based activators to steer and control the weather wherever they would like worldwide. Elon Musks ‘Starlinks’ are further weather and mind control mechanisms for the world wide web matrix of mind, weather and world control of all. Nothing less.

Now some 18 years later, nearly every awakening truther, and many who aren't, are awakening from our wake to the fact that not only is the weather being manipulated worldwide and on a daily basis but we are ingesting micro nanobots as well as causing many toxic illness like respiratory, bacterial and emotional stresses on our minds and bodies.

The history of weather modification in patents alone go back over 100 years. Even the Vatican has a coin minted in 1985 showing a plane chemtrailing the skies above the Earth. Imagine how much \$\$\$ you could make if you could/can/do manage the weather worldwide.

The highly advanced state of technology allows them to microgrid the weather anywhere they want, anytime they want to anyone they wish. We are under attack from land, sea and air as I cover in this book. Our food, no matter how local and organic is laced with heavy metal toxins that go directly into our produce, fruit and growing soils. Growing in a greenhouse may be the only answer to truly toxic free foods. As far as ending the assault of crop dusting all of humanity and life, the first step to change is always awareness. That is why I wrote this book.

“Everybody know’s, Ain’t nobody talking...”

“THE PEOPLE WILL NOT REVOLT. THEY WILL NOT LOOK UP FROM THEIR SCREENS LONG ENOUGH TO NOTICE WHAT’S HAPPENING.”

FROM 1984 WRITTEN BY GEORGE ORWELL IN 1949

Preface

The Emergence to the future Fifth World has begun. It is being made by the humble people of little nations, tribes, and racial minorities. "You can read this in the earth itself. Plant forms from previous worlds are beginning to spring up as seeds as described in SW-II, Effects and Coming Events # 1. This could start a new study of botany if people were wise enough to read them. The same kinds of seeds are being planted in the sky as stars. The same kinds of seeds are being planted in our hearts. All these are the same, depending how you look at them. That is what makes the Emergence to the next, Fifth World.

When the Great Purification is near, these helpers will shake the earth first for a short time in preparation. After they shake the earth two times more, they will be joined by the True White Brother, who will become one with them and bring the Purification Day to the world. All three will help the "younger brother" (the Hopi and other pure-hearted people) to make a better world. In the prophecies, the two helpers are designated by the Hopi word for "population," as if they were large groups of people.

The Hopi were warned that if these three great beings failed, terrible evil would befall the world and great numbers of people would be killed. However, it was said that they would succeed if enough Hopi remained true to the ancient spirit of their people. The True White Brother and

his helpers will show the people of earth a great new life plan that will lead to everlasting life. The earth will become new and beautiful again, with an abundance of life and food. Those who are saved will share everything equally. All races will intermarry and speak one tongue and be a family.

Hopi prophecy states that World War III will be started by the people who first received the Light -- China, Palestine, India and Africa. When the war comes, the United States will be destroyed by "gourds of ashes" which will fall to the ground, boiling the rivers and burning the earth, where no grass will grow for many years, and causing a disease that no medicine can cure. This can only mean nuclear or atomic bombs; no other weapon causes such effects. Bomb shelters will be useless, for "Those who are at peace in their hearts already are in the Great Shelter of Life. There is no shelter for evil. When the Saquahuh (blue Star) Kachina dances in the plaza and removes his mask, the time of the great trial will be here."

Glossary of Terms

Geo-Climate Engineering

Geo-Climate Engineering is the deliberate modification of a Earth's environment by the addition or subtraction of a resource or energy input on a massive scale. The term "geoengineering" was introduced in 1977 by Cesare Marchetti in an essay in the premier edition of a publication called Climate Change titled, "On Geoengineering and the CO2 problem".

Chemtrails - Persistent Contrails

Chemtrails is an amalgamation of the words 'chemical' and 'contrail' and is not recognized by the scientific community. However, it is defined in the Oxford Dictionary as "A visible trail left in the sky by an aircraft and believed by some to consist of chemical or biological agents released as part of a covert operation". "Persistent Contrails" is a government Psychological Operation (PsyOp) term used by scientists to confuse and obfuscate geoengineering practices and was introduced in 1970 at the proceedings of the 2nd National Conference on Weather Modification.

Contrails

Contrails can only form on commercial aircraft when humidity is over 70% and temperatures are below -76 Fahrenheit. Contrails will generally disappear after less than a minute in the sky.

Contrails are visible jet airplane engine exhaust emissions of water vapors and spent fuel. Contrails can only form on commercial aircraft when humidity is over 70% and temperatures are below -76 Fahrenheit. Contrails will generally disappear after less than a minute in the sky.

Other uses of Geo-Climate Engineering:

- 1) **Crowd Control:** Spraying of Lithium for crowd control in areas of Southern Oregon and Northern California. Lithium is used as a sedative and was actively sprayed during the attempted takeover of federal lands by US patriots in the Winter of 2016 when FBI agents openly shot and killed LaVoy Finicum.
- 2) **Mind Control:** Use of highly advanced wireless technology and "smart dust" employed for mind control. I cover this most disturbing of topics in Book III of this trilogy on GE practices titled, "Touchless Torture; Target Humanity".
- 3) **Aerosol Vaccinations:** Use is to spray aerosol vaccines over all, as admittedly being done now legally in Australia, Puerto Rico, New York and other little disclosed areas.
- 4) **Ocean Ionizing:** Use of GE is to halt the rapidly heating of our oceans by fertilizing the oceans to decrease Ultra Violet radiation which is killing off historically never before seen die-off of all species of Marine Life. This is in addition to marine life being intoxicated with mercury and radiation from the ongoing disaster from Fukushima's nuclear meltdowns.

In a study published in “Nature Climate Change”, researchers found that the upper 700 meters (about 2,296 feet) of the ocean have been warming 24 to 55 percent faster since 1970 than previously thought. This warming is not only causing sea life to die-off but dying of life giving coral reefs, kelp bed forests due in large part to excessive UV radiation uptakes of unprecedented nature.

Psyop Term ~ SRM - Solar Radiation Management/ SAI - Stratospheric Aerosol Injection/ SAG - Stratospheric Aerosol Geoengineering

Should say “Geoengineered Solar Radiation Management”. Solar radiation management is the term used by our controllers and controlled oppositions like Dane Wiggington at Geoengineeringwatch.org, to describe the “proposal” to spray large quantities of sulphur particles (e.g. sulphur dioxide) into the stratosphere (the upper layer of the atmosphere) to act as a reflective barrier against incoming sunlight. Proposals range from shooting particles from artillery guns, to using large hoses in the sky or emptying particles from the back of aircraft. The design of self-levitating particles, as well as the use of particles of other reflective minerals (e.g. titanium or aluminum) have also been considered.

NASA - National Aeronautical Space Administration

Founded in 1958 as a military operation under the Department of Defense, yet sold to the public as a civilian space exploration agency. The first Director of the Saturn rocket program for NASA was Verner von Braun, brought over to the US through Operation Paperclip. His previous employment was Nazi Germany’s chief rocket designer of the V1 and V2 “buzz bomb” rockets that rained hell fire on US and Britain allies during WWII.

EWS - Exotic Weapons Systems

Weapons designed to damage space (such as the ionosphere and upper atmosphere) or climate, weather, and tectonic systems with the purpose of inducing damage or destruction upon a target population or region on earth or in space.

DEW - Directed Energy Weapons

Electromagnetic wireless weaponry that can focus highly directed beams of energy hundreds of times more powerful than a lightning bolt. The focused energy beams can/are being used to manipulate and steer weather at will anywhere in the world, intensify hurricanes, blast rockets out of the sky, cause blindness, and is used for crowd control. DEW’s were even likely used to bring down the World Trade Center’s 1, 2 & 7, as Dr. Judy Woods surmises in her book, “Where Did the Towers Go? Evidence of Directed Free-energy Technology.”

HAARP/SBX - High Frequency Active Auroral Research Program/ Sea Based Radar X Band Radar

HAARP and sea based radar facilities strategically placed around Earth’s energy ley lines use highly concentrated radio frequency beams (RF) to super heat the Ionosphere at various altitudes. By directing and focusing these energy beams geoengineers are able to steer weather as they

wish, create hurricanes and earthquakes, knock out communications, map underground earth tomography for oil, water, etc., and wirelessly mind control from a distance.

Psychological Operation (PsyOp)

A Military/Intel Psychological Operation is covertly deployed against an enemy and designed to stimulate and manipulate the group mind of that targeted population into a desired direction or response. They do this to motivate activist groups to demand changes in their society, that the main populace would never otherwise accept or desire. Examples include supporting or demanding a new foreign war for the elites own agendas, stirring agitation in people for regime change, etc., which is actually illegal, unconstitutional, unprovoked and undeclared. It is para-

mount that Psyops be conducted in absolute secrecy in order to be effective because deception is required for maximum effectiveness. Control over all of the Major Mass Media is a minimal requirement for any large Psyop to be effective in manipulating the group mind of a nation or any subculture that is targeted.

C4ISR - Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance

Full spectrum dominance by the US military to “dominate an area of situation”. Command and control functions are performed through an arrangement of personnel, equipment, communications, facilities, and procedures employed by a commander in planning, directing, coordinating, and controlling forces and operations the accomplishment of the mission.

Morgellons Disease

Identified by Clifford E. Carnicom at the Carnicom Institute.org as synthetic sub micro Nano-fibers of airborne filaments. These bio-engineered fibers enter the blood stream after sprayed from jet aircraft.

According to the Center for Disease control: “Morgellons Disease is a multi-system condition characterized by novel skin manifestations and insidious neurological and other systemic symptoms. The distinguishing characteristic of Morgellons is the presence of microscopic subcutaneous fibers. Lighted microscopy (60x) enables the visualization of these unusual fibers, often colored red, blue, white or clear, embedded in open skin lesions as well as their presence beneath completely intact skin. The exact composition of these fibers remains a mystery”.

VRM: Morgellons Syndrome & Chemtrails

REALITY CHECK: YOU ARE NOW BREATHING ETHYLENE DIBROMIDE, NANO-PARTICULATES OF ALUMINUM, BARIUM, STRONTIUM AND CATIONIC POLYMER FIBERS WITH UNIDENTIFIED BIO-ACTIVE MATERIAL (SYNTHETIC, LABORATORY PRODUCED “INTELLIGENT” NANO-PARTICLE TECHNOLOGY). LONG TERM CHRONIC EXPOSURE TO SUCH TOXINS DESTROYS THE BODY’S IMMUNE SYSTEM LEAVING YOU VULNERABLE TO SERIOUS INFECTION, CHRONIC HEALTH PROBLEMS LINKED TO AUTO-IMMUNE DYSFUNCTION, DISEASE (HYBRID CANCER, MORGELLON’S) & PREMATURE DEATH.

For anyone in any doubt Morgellons Syndrome is very real. It is linked to Chemtrail fallout; derived from self replicating, self repairing nano-particle technology found in the spray.

Facebook.com/ASheepNoMore

Touchless Torture

The wireless control of the human brain and body functions from a remote distance. Through decades of research into brain mapping governments and military can remotely take over one's brain and central nervous systems at will. Using supercomputers, HAARP, Over-the-Horizon Radar and Smart Dust, the powers-that-be can alter brain functions, override nervous systems, implant thoughts and generally make life hell on earth for any TI, or Targeted Individual. This is being Beta tested all over the world for mass rollout and command and control of all.

One reason medical marijuana is being rushed to release around the world at the exact same time is because the higher frequency from toking effectively halts their brainwave manipulators. Synthetic weed fixes that problem before mass mind control can technologically and electrically, through wireless transfer of energy, to the masses.

Smart Dust

A new technology that is being administered through aerosol applications and wirelessly links a human brain to a computer via the implantation of a device the size of a grain of sand. These sub micro Nano devices include neuron synapse replacers in the brain and can function as self-replicating nanobots inside humans.

Nanoparticles/Nanobots

Nano particulates are a \$1 Trillion-dollar industry and largely unknown to the public. Nano particulates are 1/80th the width of a human hair and can be manipulated into many functions including sensors, bioengineered foods and self-replicating robots inside humans. Nanobots are micro-computer brains that are just two billionths of a meter across and act as tiny computer transistors. But instead of carrying out just one operation at a time, like a normal transistor, the new devices can simultaneously perform 16 operations at once. In other words, the devices use parallel processing like the human brain. The researchers call this ability "one-to-many" communication.

"Others [terrorists] are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves... So, there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations...It's real, and that's the reason why we have to intensify our [counterterrorism] efforts." ~US Defense Secretary William S. Cohen

The "New Normal" for all Life...Hack! Cough! Choke!

Chapter 1

NO Such thing as Geoengineering? Oh Really!

THE INFORMATION IN THIS FILM WILL TAKE YOUR BREATH AWAY.

By now everyone has seen crisscrossing streaks of white clouds trailing behind jet aircraft, stretching from horizon to horizon, eventually turning the sky into a murky haze. Our innate intelligence tells us these are not mere vapor trails from jet engines, but no one yet has probed the questions: WHO is doing this and WHY. With the release of this documentary, all of that has changed. Here is the story of a rapidly developing industry called Geoengineering, driven by scientists, corporations, and governments intent on changing global climate, controlling the weather, and altering the chemical composition of soil and water – all supposedly for the betterment of mankind. Although officials insist that these programs are only in the discussion phase, evidence is abundant that they have been underway since about 1990 – and the effect has been devastating on crops, wildlife, and human health. We are being sprayed with toxic substances without our consent and, to add insult to injury, they are lying to us about it. Do not watch this if you have high blood pressure.

93 million miles away you say eh???

Chapter 2

Owning the Weather by 2025

In 1996, US armed forces were presented with the striking research titled “Owning the Weather in 2025” under *Project Air Force 2025*. This research outlined the strategy to use weather modification not only as a force multiplier to accomplish military objectives in battlefield, but also to achieve capability of altering “global weather patterns by influencing their determining factors” in the next 30 years.

At that time, this idea was just an extension of weather modification capability which US had already achieved. On October 13, 1947, US Navy in collaboration with Weather Bureau and General Electric seeded tropical storm named “The Cape Sable Hurricane” under *Project Cirrus* (February, 1947 - December, 1952). This first successful hurricane modification experiment caused damage of \$ 3.2 billion. Although, the basic technology was invented by American atmospheric scientist Dr. Bernard Vonnegut in November

1946, but early weather modification experiments by US can be traced back to 1924. The December 11, 1950 *Charleston Daily Mail* (Charleston, WV) ran a short article quoting Dr. Irving Langmuir, who had worked with Dr. Vincent J. Schaefer during those early experiments conducted for the G.E. Research Laboratory:

“Rainmaking” or weather control can be as powerful a war weapon as the atom bomb, a Nobel prize winning physicist said today.

Dr. Irving Langmuir, pioneer in “rainmaking,” said the government should seize on the phenomenon of weather control as it did on atomic energy when Albert Einstein told the

late President Roosevelt in 1939 of the potential power of an atom-splitting weapon.

“In the amount of energy liberated, the effect of 30 milligrams of silver iodide under optimum conditions equals that of one atomic bomb,” Langmuir said.

How much \$\$\$ could/would you make if you could control the weather???

Weather Futures and CME

In 1999, the Chicago Mercantile Exchange (CME) introduced exchange-traded weather futures, as well as options on those futures, for the first time. Previously, over-the-counter (OTC) weather derivatives were privately negotiated, individualized agreements made between two parties. The CME weather futures and options on futures are standardized contracts traded publicly on the open market in an electronic auction type of environment, with continuous negotiation of prices and complete price transparency, measured in heating degree days (HDD) or cooling degree days (CDD). CME listed weather futures use such indexes to reflect monthly and seasonal average temperatures for 15 U.S. and five European cities, and they are cash-settled futures. These contracts' settlement prices are determined by the final monthly or seasonal index value as calculated by the Earth Satellite (EarthSat) Corp, a global corporation specializing in geographic information systems (GIS). Other firms will determine values for non-CME traded futures contracts.

In 1953 Captain Howard T. Orville was chairman of the President's Advisory Committee on Weather Control. Captain Orville was quoted widely in American newspapers and popular magazines about how the United States might use this control of the skies to its advantage. The May 28, 1954 cover of *Collier's* magazine showed a man quite literally changing the seasons by a system of levers and push buttons. As the article noted, in an age of atomic weapons and supersonic flight, anything seemed possible for the latter half of the 20th century. The cover story was written by Captain Orville.

A weather station in southeast Texas spots a threatening cloud formation moving toward Waco on its radar screen; the shape of the cloud indicates a tornado may be building up. An urgent warning is sent to Weather Control Headquarters. Back comes an order for aircraft to dissipate the cloud. And less than an hour after the incipient tornado was first sighted, the aircraft radios back: Mission accomplished. The storm was broken up; there was no loss of life, no property damage.

This hypothetical destruction of a tornado in its infancy may sound fantastic today, but it could well become a reality within 40 years. In this age of the H-bomb and supersonic flight, it is quite possible that science will find ways not only to dissipate incipient tornadoes and hurricanes, but to influence all our weather to a degree that staggers the imagination.

Indeed, if investigation of weather control receives the public support and funds for research which its importance merits, we may be able eventually to make weather almost to order.

1916 Charles Mallory Hatfield “The Moisture Accelerator” Makes Rain For L.A., Floods San Diego

The indisputable fact is that Hatfield went into the hills nineteen times to bring on a rain, and nineteen times it rained when he promised. Last December a reward of \$1000 was offered him, half as a joke, on condition that he make it rain eighteen inches in Southern California between December 15 and May 1. He has collected that reward. - Dawson Daily News 1905

For the benefit of other promoter who may wish to capitalize the rainfall, let us note that Mr. Charles Hatfield, a professional rainmaker of Altadena, Cal., received \$1000 from the merchants of Los Angeles in return for a precipitation of 18.96 inches in three months. - Boston Evening Transcript 1905

In his free time, Charles Mallory Hatfield read about pluviculture and began to develop his own methods for producing rain. By 1902 he had created a secret mixture of 23 chemicals in large galvanized evaporating tanks that, he claimed, attracted rain. Hatfield called himself a moisture accelerator.

The city of San Diego, suffering badly from drought, made a deal with Hatfield to make it rain. He agreed, and made it rain so hard there was flash flood, causing millions of dollars in damages. As a result, Hatfield was not paid, as this would imply fault on the part of the city. Ironically, this story is a microcosm of the weather modification industry. They want to be able to change the weather, but if the weather turns sour, they don't want to have to pay for the damages. Charles Hatfield and the 1916 flooding at Lake Morena is the subject of the song *Hatfield*, a fan favorite of the southern jam band, Widespread Panic. Singer/guitarist John Bell wrote the song after reading the story of the rainmaker in a *Farmers' Almanac*.

Charles Hatfield (on the ladder) and his younger brother with one of their rain towers, in Coalinga, Calif. The pair built a similar 20-foot tower in the woods east of San Diego and began what one city official would later call “an incantation aimed at wringing moisture from the air.” What followed was a destructive downpour.

POLITICS & HISTORY

When San Diego Hired a Rainmaker a Century Ago, It Poured

After Charles Hatfield began his work to wring water from the skies, San Diego experienced its wettest period in recorded history.

Charles Hatfield, the rainmaker, checking some equipment. (Copyright Bettmann/Corbis/AP Images)

Chapter 3

Chemtrail Crop Dusting and We Are the Bugs

If geoengineering continues unabated, and the ozone layer is completely destroyed, it will be game over for us all. No ozone layer = no life on Earth. It's that simple.

- Geoengineering is tearing apart the entire fabric of life on our planet.
- Geoengineering is poisoning our air, waters, and soils.
- Geoengineering is pushing increasingly erratic atmospheric processes resulting from human-propelled climate change past the Chaos threshold into unpredictable, self-reinforcing, cascading events.
- Geoengineering is disrupting the jet stream and all natural weather patterns, which in turn is fueling catastrophic climate feedback loops, the direst of which are mass methane hydrate releases from the Arctic tundra and sea floor.
- Geoengineering is destroying the stratospheric solar radiation shielding, which protects all life on Earth.
- Geoengineering is disrupting the jet stream and all natural weather patterns, which in turn is fueling catastrophic climate feedback loops– the direst of which are mass methane hydrate releases from the Arctic tundra and sea floor.
- Geoengineering is destroying the stratospheric solar radiation shielding, which protects all life on Earth.

Much of the material presented is unknown to most and many should find the information extremely disturbing. Because geoengineering is rarely reported by mainstream media, this does not mean it is not occurring. Simply it means we all have been purposely and deliberately kept in the dark while geoengineering activities have been occurring for decades in the light of day, in plain sight, over all our heads, as the evidence presented in this book will conclusively show.

I worked for 25 years as an analyst on Wall Street and I can personally attest to those that are in power spend an inordinate amount of time, resources and energy, to make sure that no one usurps their power base. This is why the Morgan, Rockefeller, Gates, etc. foundations have controlled education and media for so long and so well.

Truth be told, not sold, technology is much more highly advanced than we have been taught. It is a little-known fact that DARPA, the Defense Advanced Research Projects Agency, introduced the internet to the public in 1995. If we can access Wi-Fi technology on airplanes for our computers, what do you think the military can do with such technology they had developed decades before the internet was released to the public?

Additionally, the nanoparticle industry is now a \$1 Trillion-dollar industry. Nano technology is so small it cannot be seen by the naked eye and is 80 times smaller than the width of a hair and is totally unregulated and undisclosed technology that is in our foods, released into the air and in vaccines.

People of Earth have a right to know that chemicals and smart dust carrying mind control technologies are being sprayed in our skies, with harmful known and unknown effects to all Life. The main purpose of this book to educate, alert and inform those who wish to learn some of the most inconvenient truths ever told, and to sound the alarm, to not only get our governments to openly disclose such practices, but to educate the public so that all Geoengineering activities can be halted immediately before it is too late for all Earth's inhabitants.

Earth is out of balance now, yet it is her Nature to seek balance

We must let Earth heal from Man's egregious anthropogenic polluting and technological manipulations so that all sentient life can be spared from ingesting harmful micro fibers and chemicals that pass directly through our blood and brain barriers that are causing so many maladies of ill health effecting all, especially our children.

As our only Earth heats, up, ever more rapidly now, many will want answers and ask our government to "do something" to halt runaway heating of our lands and oceans. In Psychology 101 terms, this is known as the classic "problem, reaction, solution" scenario.

In a recent survey of almost 1500 scientists, not a single scientist was willing to deny on the record that climate engineering/solar radiation management, stratospheric aerosol injection, cloud albedo enhancement had already been deployed. In summary, not one of almost 1500 scientists was willing to deny (on the record) the climate engineering atrocities in our skies.

2016 has just been officially confirmed as the warmest year on record, by far. 2016 is the third record shattering warm year in a row. We have now passed over 30 consecutive years of above normal temperatures on Earth, and even now, individuals from the climate science/meteorological communities are actively propagating the blatant lie that climate engineering/solar radiation management will save us from planetary incineration (which geoengineering is making far worse, not better).

All available data proves beyond reasonable doubt that illegal, immoral, and unimaginably destructive climate engineering programs have been fully deployed for over 70 years. Yet, the official denial of ongoing geoengineering continues to be pumped out from the circles of academia.

Problem, Reaction, Solution aka The Hegelian Dialectic

Our so-called “leaders” have created the problem through stealth applications of aerosol spraying and have significantly accelerated the heating of Earth. Now that there is nearly daily reporting of unseen record die-off of species, along with record warming oceans and lands, people will be crying for those that are causing such devastation to “do something” in reaction.

As we are starting to see now, the geoengineering scientists are finally beginning to come out in the open and propose that climate engineering take place to intervene and provide the solution from the problem that they are largely responsible for creating and none are the wiser.

Therefore, it is critical for all to get educated and informed as soon as possible. Then, in a unified, unrelenting loud voice, we need to call for the end of all geoengineering practices immediately and de-profitize corporate interests to end, once and for all, the continued spraying all like bugs, on a near daily basis all over the world for decades now. We also need to out and hold those accountable for these egregious attacks on their own people for their sick agenda for command and control of all life on Earth.

Besides heavy chemtrail bombardment from aerosol spraying, humans, and their endless consumption is giving Mother Earth a very severe virus through the constant terra-forming of her with toxic heavy metals and chemicals. When we get sick with the flu, we heat up and sweat out the toxins, so that we can heal. This is exactly what our Supreme Mother is effecting the change to end what is causing her such pain and suffering.

Simply, we cannot keep treating Mother Gaia as a sewer and supply house without consequence for all future life.

By immediately halting all geoengineering practices and humans toxic polluting ways can we allow Earth to heal on her own terms. Though we are in the 12th hour, by stepping out, though no one else is and taking action now.

In many, many ways we just don’t know what will happen but we must try, for all children’s sake, for all Life that is being affected by madmen and women who could care less about you, me or the children of the world and helpless other sentient Life.

(Appendix II has healthy foods and vitamins to take to detoxify)

Aerosolized Toxins

(List provided by StopSprayingCalifornia.com)

CHEMTRAILS INGREDIENTS

Aluminum Oxide Particles, Arsenic, Bacilli and Molds, Barium Salts, Barium Titanates, Cadmium, Calcium, Chromium, Desiccated Human Red Blood Cells, Ethylene Dibromide, Enterobacter Cloacal, Enterobacteriaceae, Human white Blood Cells-A (restrictor enzyme used in research labs to snip and combine DNA), Lead, Mercury, Methyl Aluminum, Mold Spores, Mycoplasma, Nano-Aluminum-Coated Fiberglass, Nitrogen Trifluoride Known as CHAFF, Nickel, Polymer Fibers, Pseudomonas Aeruginosa, Pseudomonas Florescens, Radioactive Cesium, Radio Active Thorium, Selenium, Serratia Marcescens, Sharp Titanium Shards, Silver, Streptomyces, Stronthium, Sub-Micron Particles(Containing Live Biological Matter, Unidentified Bacteria, Uranium, Yellow Fungal Mycotoxins, fluoride.

Below is a list of some of the known chemicals and metals used in geoengineering practices world-wide. Ingredients are mixed in an aerosol cocktail that contain basic ingredients such as barium, chloride, aluminum oxide, synthetic polymers, bio-Nano particles, and ethylene dibromide. An independent analysis of geoengineered fallout has conclusively identified many of these toxic chemicals:

- Aluminum Oxide Particles
- Arsenic
- Bacilli and Molds
- Barium Salts
- Barium Titanates
- Cadmium
- Calcium
- Chromium
- Desiccated Human Red Blood Cells
- Ethylene Dibromide

Enterobacter Cloacal
Enterobacteriaceae
Formaldehyde
Human white Blood Cells-A (restrictor enzyme used in research labs to snip and combine DNA)
Lead
Mercury
Methyl Aluminum

Known Illnesses

What follows is an exhaustive list of symptoms associated with aerosol spraying. Each symptom has been identified by various individuals who have clocked their occurrence with the onset of aerosols being laid down over their homes or businesses. This list has been organized in a descending order, with the most commonly experienced symptoms at the top.

- Headache
- Brain fog
- Fatigue
- Low energy
- Compromised immunity
- Disorientation
- Difficulty paying attention and concentrating
- Sinusitis
- Skin discomfort/irritation

- Joint pain
- Muscle pain
- Asthmatic (Breathing difficulties)
- Dizziness
- Insomnia
- Memory loss
- Eye problems (blurred or fuzzy vision)
- Nausea
- Liver problems
- Gallbladder dysfunction
- Tinnitus (distant ringing in ears or high pitched sound after spraying)
- Neck pain
- Scratchy throat
- Allergy symptoms
- Hay fever out of season
- Flu-like symptoms
- Susceptibility to colds
- General weakness
- Anxiety
- Lightheaded or faint
- Depression
- Coughing
- Sneezing
- Shortness of breath
- Vertigo
- Anger/Rage/Frustration issues
- MORGELLONS disease

Local and state air quality boards do not test for aerosol sprays made by through human technology, hence they can honestly regularly report they find no evidence of GE activities. You do not find what you don't look for!

Each of these symptoms is a normal occurrence in all areas around the world where geoengineering practices have become a fact of life. The preponderance of barium salt (barium chloride) and alumina (aluminum oxide), which are said to exist in the greatest concentration in aerosol spraying, is particularly alarming. Why? Because barium is well known to decrease and/or impair immune function. Aluminum oxide has its own set of problems, especially when inhaled in certain concentrations over prolonged periods of time. Aluminum, in any form, is not very easy for the body to detoxify, especially when it finds a home in the lungs.

The very last medical condition on the preceding list – Morgellons disease – is not a symptom; rather, it is a full-blown disease process that usually takes years to manifest in its most serious

form. In fact, there are websites dedicated exclusively to the research and treatment of Morgellons disease. Some of them very specifically demonstrate how aerosol spraying appear to provide some of the primary chemical co-factors in the causation and subsequent development of this extremely unusual and inscrutable multi-infection syndrome.

Detoxing of heavy metal uptake in our systems as well as eating only biodynamic and organic foods to naturally build up our immune systems is essential to preventing these many diseases caused by decades of geoengineering also called "Hyper-Toxicity Syndrome."

CALIFORNIA AERIAL SPRAYING for West Nile Virus and SV40

In February 2009 to present date, aerial spraying for the WNV occurred in major cities within the State of California. During spraying of Anaheim, CA a Caucasian female (age 50) was exposed to heavy spraying, while doing her daily exercise of walking several miles.

Heavy helicopter activity occurred for several days in this area. After spraying, she experienced light headedness, nausea, muscle aches and increased low back pain.

She was evaluated for toxicological mechanisms that were associated with pesticide exposure due to aerial spraying utilizing advanced biological monitoring testing.

The test results which included protein band testing utilizing Protein Coupled Response (PCR) methods were positive for KD-45. KD-45 is the protein band for SV-40 Simian Green Monkey virus. Additional tests were performed for Epstein-Barr virus capsid and Cytomeglia virus which are used in bioengineering for gene delivery systems through viral protein envelope and adenoviral protein envelope technology.

The individual was positive for both; indicating a highly probable exposure to a DNA vaccination delivery system through nasal inhalation.

Australia to Forcibly Vaccinate population through Aerosol Spraying

By The Real Agenda News Published at: 11:06, February 26, 2015 According to the regulator, it qualifies as a limited and controlled release under section 50A of the Gene Technology Act 2000. The Office of the Gene Technology Regulator (OGTR) is on its way to approve a licence application from PaxVax Australia (PaxVax) for the intentional release of a GMO vaccine consisting of live bacteria into the environment in Queensland, South Australia, Western Australia and Victoria.

According to the regulator, it qualifies as a limited and controlled release under section 50A of the *Gene Technology Act 2000* PaxVax is seeking approval to conduct the clinical trial of a genetically modified live bacterial vaccine against cholera. Once underway the trial is expected to be completed within one year, with trial sites selected from local government areas (LGAs) in Queensland, South Australia, Victoria and Western Australia. PaxVax has proposed a number of control measures they say will restrict the spread and persistence of the GM vaccine and its introduced genetic material, however there is always a possibility of these restrictions failing and infecting wildlife and ecosystems.

Aerial vaccines have used in the United States directed towards animals by the use of plastic packets dropped by planes or helicopters. Sanofi (who is one of the largest vaccine manufacturers in the world) has subsidiary companies such as Merial Limited who manufacture Raboral, an oral live-virus poisonous to humans yet distributed wildlife in the masses.

In 2006 Michael Greenwood wrote an article for the Yale School of Public Health entitled, "Aerial Spraying Effectively Reduces Incidence of West Nile Virus (WNV) in Humans."

The article stated that the incidence of human West Nile virus cases can be significantly reduced through large scale aerial spraying that targets adult mosquitoes, according to research by the Yale School of Public Health and the California Department of Public Health.

Under the mandate for aerial spraying for specific vectors that pose a threat to human health, aerial vaccines known as DNA Vaccine Enhancements and Recombinant Vaccine against WNV may be tested or used to “protect” the people from vector infection exposures.

DNA vaccine enhancements specifically use Epstein-Barr viral capsid’s with multi human complement class II activators to neutralize antibodies. The recombinant vaccines against WNV use Rabbit Beta-globulin or the poly (A) signal of the SV40 virus. In early studies of DNA vaccines it was found that the negative result studies would go into the category of future developmental research projects in gene therapy. During the studies of poly (A) signaling of the SV40 for WNV vaccines, it was observed that WNV will lie dormant in individuals who were exposed to chicken pox, thus upon exposure to WNV aerial vaccines the potential for the release of chicken pox virus would cause a greater risk to having adult onset Shingles.

During his 2009 TED talk, Bill Gates opened a jar of mosquitoes saying “Malaria is spread by mosquitoes. I brought some... I’ll let them roam around. There is no reason only poor people should be infected” & waited for ~a minute before telling the audience that the bugs were malaria-free.

Bill Gates' father, William H. Gates Sr, has long been involved with the eugenics group Planned Parenthood, a rebranded organization birthed out of the American Eugenics Society.

In a 2003 interview with PBS' Bill Moyers, Bill Gates admitted that his father used to be the head of Planned Parenthood, which was founded on the concept that most human beings are just "reckless breeders" and "human weeds" in need of culling.

Billions of genetically modified male mosquitos will be released in California and Florida as a 'natural pest control' to stop the spread of diseases like Zika, yellow fever and Dengue

- The modified mosquitos are developed by Oxitec as a biological pest control
- Millions of the insects were already released in the Florida Keys early in 2021
- The EPA has given Oxitec an experimental use permit to release billions by 2024
- The males carry a protein that causes any females born to die before maturity
- This is to reduce the population and slow disease spread as only female bite

Well it seems that the government is taken control of our lives, controlling us like slaves and making decisions without consulting the people of Australia, controlling us like dictators that think they know whats best for YOU breaking down our immunity system controlling what we drink, what we eat, what we breath in and what we put into our bodies and our foods without a choice braking down our immunity system

What if it is goes wrong, who is responsible for the poisoning of our animals and people

Depopulation through Aerosol Spraying Vaccines Occuring Worldwide NOW!

BREAKING NEWS

HOUSTON TO SPRAY NEUROTOXIN FOR MOSQUITO CONTROL

Get Your College Degree in Geoengineering! “Mom, I got my degree in how to kill us off from the sky..”

“But there are at least 26 reasons why geoengineering may be a bad idea. These include disruption of the Asian and African summer monsoons, reducing precipitation to the food supply for billions of people; ozone depletion; no more blue skies; reduction of solar power; and rapid global warming if it stops.” –Alan Robock, Professor, Department of Environmental Sciences, Rutgers University, 2013

Oxford Geoengineering Programme

Geoengineering Programme was founded in 2010 as an initiative of the Oxford Martin School at the University of Oxford. Geoengineering – the deliberate large-scale intervention in the Earth’s natural systems to counteract climate change – is a contentious subject and rightly so. The Oxford Geoengineering Programme seeks to engage with society about the issues associated with geoengineering and conduct research into some of the proposed techniques. The programme does not advocate implementing geoengineering, but it does advocate conducting research into the social, ethical and technical aspects of geoengineering. This research must be conducted in a transparent and socially informed manner.

Harvard University: Center for The Environment

About the Working Group: Solar geoengineering is the concept of deliberately cooling the Earth by reflecting a small amount of inbound sunlight back into space. This seminar series, held jointly by the Harvard University Center for the Environment (HUCE) and MIT's Joint Program on the Science and Policy of Global Change, will explore the science, technology, governance and ethics of solar geoengineering. In bringing together international experts, participants will learn some of the greatest challenges and hear opinions on how this technology could and should be managed.

University Of Texas, Austin

The Center for Integrated Earth System Science (CIESS) is a cooperative effort between the Jackson School of Geosciences and the Cockrell School of Engineering. The Center for Integrated Earth System Science (CIESS) seeks a deeper understanding of the physical chemical, biological and human interactions that determine the past, present and future states of Earth. Specifically, the goal of CIESS is to answer a wide variety of earth science questions including:

How can we use in situ measurements, global satellite observations, proxy data, and computational analysis to describe and understand Earth's dynamic system?

What has been the impact of human activity on Earth?

What is the future of our environment under climate change, land use change, and water use change?

How can we reduce modeling uncertainties and make reliable predictions of extreme events at regional scales? How can we make rational decisions under uncertainties in order to mitigate, prevent, plan for or adapt to the negative potential impacts of global change?

Columbia University

A complementary degree (Master of Arts in Climate and Society) is available through Columbia University for students who are more directly interested in social or planning aspects of climate impacts, and are not quantitatively oriented.

University of Michigan

"For cloud seeding - we are already doing that. We have satellite images of ship-tracks available that tell us that in fact the emissions from the ships brighten the clouds in the little lines you see (chemtrails) and change the radius of the particles in the clouds. So we're already doing that." We also know that the aerosols that we are currently emitting are already protecting us from global warming to a certain extent...We have already seeded marine clouds." Professor

Why are they Geoengineering our skies?...Because they Can

This book was written in 1991 by top scientists as to the coming Geoengineered Climate Change meme being presented as a runaway climate when in fact all weather is Geoengineered for over 3 decades now. This book goes into great detail as to using chemicals sprayed on land, sea and air. EXACTLY what they are doing today. Problem. Reaction. Solution.

The Earth is a living organism and since the Industrial Revolution humans have had an ever-greater impact on her ability to self-regulate weather systems. In coordinating synchronicity, world governments have been manipulating weather for over 50 years, which has caused irreversible harm to that which gives us all Life.

For over 50 years, geoengineering scientists have been able to manipulate weather to steer hurricanes as well as increase storm intensities. By pulsing directed energy into the ionosphere, they can cause earthquakes, disrupt communications and utilize mind control techniques on any individual they wish, remotely and wirelessly.

NASA, the US Air and Navy, the Department of Homeland Security and other military's around the world are heavily involved, as well as private corporations.

Nature balances that what she does. And when she gets out of balance she regulates to return to a healthy equilibrium. Man's anthropogenic activities have caused her to kick into a self-protection mode of heating up her body to eradicate the foreign host that is causing her imbalance. This is much like when we get a flu, our bodies will naturally heat up into a fever to sweat out of the body of its foreign toxins and to rebuild our immune systems. When we "break the fever" it is accompanied by sweating respiration as our body returns to normal.

This is Nature's same response to our prolonged GE activities and Man's decades of polluting without consciousness as to the long-term effects. Well before anyone had heard the term, "Global Warming" and "Climate Change", the best and the brightest were submitting major scientific studies on how to mitigate a warming Earth that they knew would come due to mass pollution of our skies from endless consumption and population growth.

A 918-page book to study these effects on Earth by Man's technological driven activities titled, "Policy Implications of Greenhouse Warming" was created by the National Academy of Sciences and presented to the US Government in 1992. Over 150 of the "best and brightest" US scientists, academicians and economists were assembled to address the already predicted warming of Earth as to mitigation, adaptation and which potential technological solutions to employ.

This major study, endorsed by the EPA, was to address man made greenhouse gas emissions: Carbon Dioxide (CO₂), methane, water vapor, chlorofluorocarbons, etc., and what measures might be available to halt the increasing runaway heating of Earth that was known to be coming due to endless consumption, population growth and resulting exponentially increased pollution as China, India, Russia and other mass populated country's began driving more cars, flying more planes, eating more meat and using more greenhouse gas producing energy.

“Those are just condensation trails, aren’t they?”

Condensation trails are another lie that was created to convince the public that high-bypass turbo fan jet engines create condensation trails, also known by most as contrails that react to colder temperatures at high altitudes.

This is what most have been lead and taught to believe the reason for trails left in the sky when airplanes pass by overhead. We are told that jet trails are a “normal result of fuel combustion”, which is simply not true. The fact that high-bypass turbofan engines cannot produce trails is the reason life-long sky watchers and pilots have never seen trails come from these engines until widespread geoengineering began.

High-bypass turbofan engines do not create condensation trails. The ratio of air-to-exhaust is much too high to facilitate the formation of condensation because the majority of air expelled from the back of the engine is not combusted. It is passed through the “fan” and simply blown out the back without mixing with any fuel at all. Turbine engines are the power plant for high-bypass turbofans. Turbine engines are used in other applications besides powering jets. They are also used to power helicopters and many props driven planes, yet we never see trails coming from these types of vehicles, and the reason is simple. Turbine engines virtually never produce condensation trails.

The formation of condensation trails requires vacuum (reduction in air pressure), cold temperatures, and high humidity, however, the output side of a jet engine contains mostly outside air that has been pushed through the engine by the large ducted fan (The ducted fan is the set of spinning blades that you see when you look at the front of the engine). This high-pressure at the output of the engine is contrary for the formation of condensation trails because pressurized air has the ability to hold much more water in suspension, without producing condensation. Condensation formation requires a decrease in ambient air pressure to form, but the output of the turbine is under very high pressure which prohibits the formation of condensation trails.

These acts of misdirection and outright lies created are similar to the huge lies that took the US to war in Iraq in 2003. An ongoing, never ending war that has killed millions of innocent people based upon US top intelligence declaring positively and conclusively that Saddam Hussein possessed Weapons of Mass Destruction.

Or the great lies that a bunch of poor, uneducated guys of Arab nations, mostly from Saudi Arabia, were able to overpower the most prepared and powerful military in the world with box cutters on 9/11/01 and that with over an hours’ notice, the most heavily fortified building on Earth, with 23 surface-to-air missiles, yet still allegedly hit the Pentagon and all we were shown were 5 grainy still shots of the plane.

Then we hunt for ten years for the mastermind, a 6’6” guy on dialysis hiding in caves, whose family members were the only ones allowed to leave the country after the towers were brought down. It is also lost on most that Osama bin Laden previously was a CIA paid operative in Afghanistan working under the name Timothy Osman, to fight the Russian invasion in the late 1980’s. Even though we all know in our hearts politician lie and lie, many still support elections and the government system that steals and takes what it wants from the poor so the rich can get wealthy, truth be told.

In Chapter 28, page 471, titled “Geoengineering” science, academia, and think tank recommendations were put forth on how to keep Earth from overheating in the coming decades.

Recommended to mitigate runaway warming included such activities such as using space mirrors to reflect heat away from Earth, cloud stimulation to burn sulfur in ships to stimulate additional low marine clouds to reflect sunlight, and the creation of “low stratospheric dust and soot to maintain reflect sunlight.”

That was in 1992, so fast forward nearly 25 years and we are recording in the air, the soil, and in our water, greatly elevated levels of aluminum, barium and strontium used to create artificial layers of clouds where the metallic substances are used to do exactly what the US government sponsored report recommended. Coincidence theorists proven right once again!

To be very clear, GE has gotten so advanced that all weather we experience today can, and is, being manipulated by advances in science and their climate engineers. The rule being that if all you have is a hammer, everything will look like a nail to you. So, pound away and spray our skies into opaqueness to control and regulate Nature’s weather at will without conscience for the consequences to her and to the future of Life on Earth.

Unfortunately for all, these GE practices being conducted over the past decades has only increased the greenhouse gases on Earth, not lessened them. No better illustration of this fact is when the US Navy, in 2013, greatly revised their estimates of an ice-free Arctic from occurring. Nearly all previous documentation as to when humans abuse would cause the Arctic North to be ice free, upon current trajectory, was between 2075-2100.

Some Interesting "Then Year" BW Possibilities

- Aflatoxin - ("natural," parts-per-billion, carcinogen)
- Airborne varieties of Ebola, Lassa, etc.
- Binary agents distributed via imported products (Vitamins, Clothing, Food)
- Genomically (individual/societal) targeted pathogens
- Long term/fingerprintless campaign (as opposed to "shock and awe" BW)

An (Existing Bio Calmative - VEE (Venezuelan Equine Encephalitis))

- Ideal Incap. BW Agent
- Weaponized by U.S. & USSR in 50's/60's
- Easily transmitted via Aerosol
- Highly Infectious, Low Fatality Rate
- 1 to 5 day incubation, 3 week recovery
- Tested on Humans (Operation Whitecoat)
- No Treatment Available

Future Strategic Issues/Future Warfare [Circa 2025]

- Capabilities of the "Enemy After Next"
 - Ongoing Worldwide Technological Revolutions
 - Economic Trends
- Potential Nature of Farther Term Warfare

Micro Dust Weaponry

A Mechanical Analog to Bio, Micron sized mechanized "dust" which is distributed as an aerosol and inhaled into the lungs. Dust mechanically bores into lung tissue and executes various "Pathological Missions."

A Wholly "New" class of Weaponry which is legal.

EXECUTIVE ORDER 13603

AT A TIME OF THE PRESIDENT'S CHOOSING, THE FEDERAL GOVERNMENT MAY TAKE OVER:

- > "ALL FORMS OF ENERGY"
- > "ALL FORMS OF CIVIL TRANSPORTATION"
- > "ALL USABLE WATER FROM ALL SOURCES"
- > "ALL COMMODITIES AND PRODUCTS THAT ARE CAPABLE OF BEING INGESTED BY EITHER HUMAN BEINGS OR ANIMALS"
- > "HEALTH RESOURCES - DRUGS, BIOLOGICAL PRODUCTS, MEDICAL DEVICES, MATERIALS, FACILITIES, HEALTH SUPPLIES, SERVICES AND EQUIPMENT"
- > "INDUCTION" OF CITIZENS INTO THE MILITARY AGAINST THEIR WILL

Subliminal Mind Control

Mind control programming of the subconsciousness of the masses. Just like you see a round ball globe in nearly every movie you watch to subliminally program your subconscious to “know” the earth is a round spinning ball at unfathomable speeds. So is chemtrailing our skies which are subtly, and not so subtly, photoshopped in the background of even old movies now as well as cartoons and commercials. And few are even aware. This makes the sheeple accept chemtrails as “normal” and part of our “natural” skies.

Chapter 4
Faces in the Clouds

60 *Nothing Is True – Everything Is a Lie*

Chapter 5

Toxic Skies. Toxic World. Toxic Us.

For me it began in 2005, just a few months after being woken to 9/11 and Press for Truth videos, I met Dane Wigington of Geoengineering watch. In fact, I bought land and moved next to him in hills above Lake Shasta.

As we parted ways years back, as I understood the much, much greater agenda by our Controllers.

- Think about if you could own all weather, what powers over the world would you then have?
- Think if you had commodities markets that trades weather futures, and you Control the financial markets?
- Think If you learned that the 1996 USAF military document was titled, "Owning the Weather by 2025", was a reality show?
- Think if you had every weapon at your arsenal to use like DEW laser weapons from above and ULF lighting to completely vaporize homes from the inside out?
- Think if you have to make artificial weather for all for us, and flora and fauna to live?

They took Tartarian know how to make weather for kindness, benevolence and beauty for all until the Roman Era beginning in 1200 destroyed, and cloaked a magnificent one world civilization existing just 100 years ago is exciting, but painful knowledge of the evil that possesses this deep technology above us and now flaunt it so. Making many sick, and unable to stay healthy.

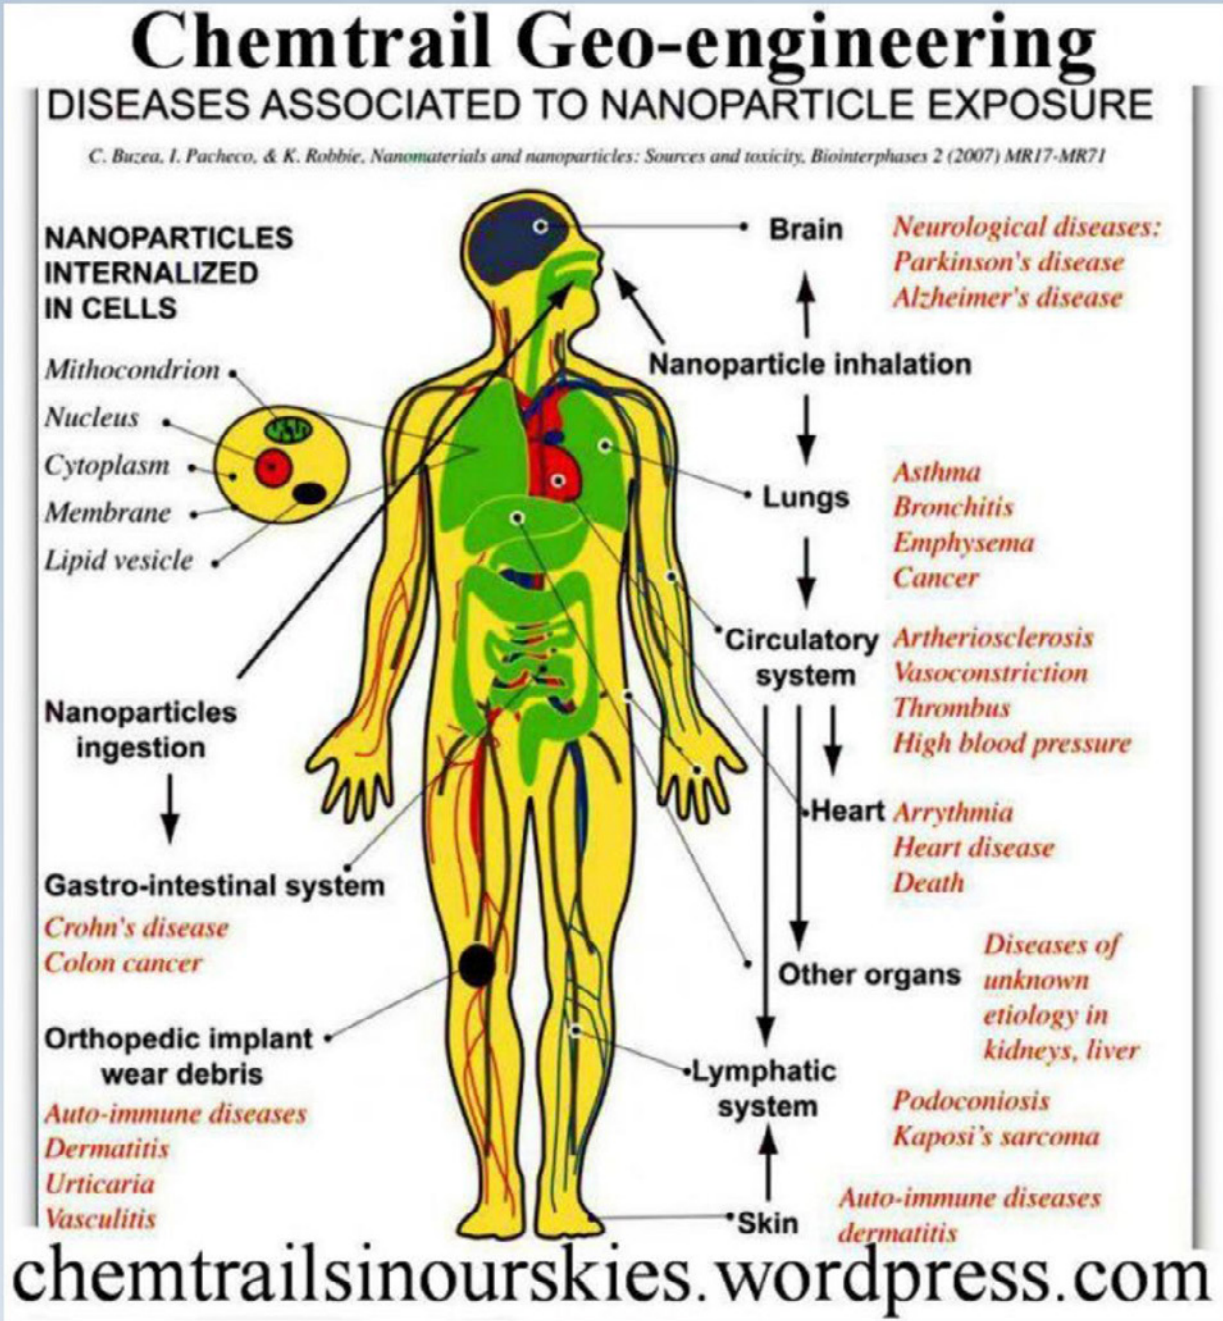

The truth be told it is slow kill, like bugs extermination time, as we useless eaters are no longer desired, but even larger than that...

...is to own our souls for all eternity, so they can literally "Rule in Hell" as Satan declared in his wish when he was cast down to Earth. And this is his web above us in the false skies that is also a net with drones in the sky in nearly every city, and even country I've been to in Northern California.

AWARENESS and EDUCATION are always the first step towards any meaningful change. So, so many are now extremely aware and speaking and sharing what we know, and many of us have preached for so long, is now a great awakening, And sharing what you know becomes critical know, or at least catalogue what odd and strange going ons in your skies above to journal your area, if you want/can.

A Wholly “New” class of Weaponry which is legal.

"These are made by Hitachi. They measure only .15X.15 mm each and have GPS capabilities! Sometimes called 'smartdust' as they can be sprayed on us and absorbed or taken in foods, drinks and even injected."

MOBILE NETWORKING FOR “SMART DUST” WITH RFID SENSOR NETWORKS

SHYAM D. BAWANKAR¹, SONAL B. BHOPLE² & VISHAL D. JAISWAL³

^{1,2&3}Department of Electronics Engineering, Datta Meghe Institute of Engineering Technology and Research, Wardha, India.
E-mail : shyam_bawankar@rediffmail.com, sonalbhople@gmail.com & dr.vishal_jaiswal@rediffmail.com

Abstract- Large-scale networks of wireless sensors are becoming an active topic of research.. We review the key elements of the emergent technology of “Smart Dust” and outline the research challenges they present to the mobile networking and systems community, which must provide coherent connectivity to large numbers of mobile network nodes co-located within a small volume. Smart Dust sensor networks – consisting of cubic millimetre scale sensor nodes capable of limited computation, sensing, and passive optical communication with a base station – are envisioned to fulfil complex large scale monitoring tasks in a wide variety of application areas. RFID technology can realize “smart-dust” applications for the sensor network community. RFID sensor networks (RSNs), which consist of RFID readers and RFID sensor nodes (WISPs), extend RFID to include sensing and bring the advantages of small, inexpensive and long-lived RFID tags to wireless sensor networks. In many potential Smart Dust applications such as object detection and tracking, fine-grained node localization plays a key role.

Keywords: WSN (Wireless Sensor Network), RFID (Radio Frequency Identification), RSNs (RFID Sensor Network).

Chapter 6

From Land, Sea and Air the Attacks Come

Wether you weather whether or not you can accept Geoengineering can and does exist on a One World coordinated system for decades and decades with the most and sophisticated technologies they just keep building and designing.

I have a nice drone machine I've used several times with my son. The images were amazing as was the technology to return right back to where it took off..and the sky on the horizon I had images for miles and miles in very good clarity. Now...THINK WHAT THE CONTROLLERS HAVE at there use and disposal...get it disposal, on all.

Watch the movie Songbird about Covid 23. Look up the World Economic Forum website who is telling us, from the Controllers themselves, what they plan to do to...ahem..for us all. "YOU will own nothing and be happy by 2025", President Von Shwaub proudly declares to worldwide". They are literally mocking us, like when Covid 19 hit, (C- See, Ovid - Sheep = See Sheep), Fauci in Hebrew means Sickle.

They not only own the weather but the own the very light we all need to live with artificial Suns worldwide and above us all. 3 Days of Darkness, has been so prophesized in the Bible, may very well come, or could very well come by design, this very event itself, of biblical proportions.

October is the rebalancing month, this is why you see such huge crashes and down markets and world changes month, and no car company in the world as built a gas powered car IN THE LAST TWO YEARS!! Now why would auto maker only make electric vehicles and every one of us own gas powered cars. Auto makers must make money, so tremendous sales must occur soon, eh?

To be aware is to be able to adapt, adjust, record, observe, protect, start indoor greenhouses, become a Breatharian, learn to farm, to store and can food now. Who knows what evil the will perp on anyone, anywhere at anytime our Controllers desire. It is that simple and profound, sorry to say, truth be told.

**Owning the Weather
Controlling Humanity
For 100 years.**

Scalar Waves

HETERODYNING

"HETERODYNING IS A RADIO SIGNAL PROCESSING TECHNIQUE INVENTED IN 1901 BY CANADIAN INVENTOR-ENGINEER REGINALD FESSENDEN, IN WHICH NEW FREQUENCIES ARE CREATED BY COMBINING OR MIXING TWO FREQUENCIES. HETERODYNING IS USEFUL FOR FREQUENCY SHIFTING SIGNALS INTO A NEW FREQUENCY RANGE, AND IS ALSO INVOLVED IN THE PROCESSES OF MODULATION AND DEMODULATION."

CYBERTORTURE
UN starts investigation to ban Cybertorture

www.Cyber-Torture.com

UN reaches out to Targeted Individuals World Wide
Advanced cyber technology is worldwide used to target individuals remotely through intimidation, harassment and public shaming. Electromagnetic radiation, radar, and surveillance technologies are used to transfer sounds and thoughts into people's brains. UN is now underway to create an international legal framework for covering cyber technologies used to torture individuals, which was previously hard to prove because of invisibility, secrecy and deception. Stay tuned for new reports.

The Electromagnetic Environment

James L. Oschman PhD, in Energy Medicine (Second Edition), 2016

Prudent Avoidance

In the 1980s, several personal electromagnetic shielding devices were developed – based on the use of coils of the Möbius design that emit scalar waves – that were said to be safe for living systems. One of these devices was a watch containing a microchip that produced a Schumann-type signal at about 8.0 Hz. This device purportedly stabilized a person's brain waves at a frequency that was considered safe and beneficial. Many of these devices were sold, and there were reports of benefits from wearing them, including reduction of jet lag, more energy, lower blood pressure, and feelings of well-being. These qualitative effects have been difficult to document.

Rein (1998) has summarized more recent work on the biological effects of scalar waves. Scalar waves can inhibit neurotransmitter uptake into nerve cells and stimulate the growth of human lymphocytes. There are indications that the effects are in part mediated by effects on the properties of cell and tissue water.

More powerful emitters of scalar waves, in the range 6–60 mW power consumption, have been developed (Abraham, personal communication, 1998). The devices emit scalar waves at the average Schumann frequency, 7.83 Hz. Preliminary tests indicate that scalar waves at this frequency are safe and protect those who suffer from electromagnetic field sensitivity. Moreover, preliminary clinical trials indicated a variety of health benefits, including improvement of symptoms of chronic fatigue syndrome, fibromyalgia, cognitive impairments, and sleep disorders (Abraham, personal communication, 1998).

The development of a reliable and powerful source of potential waves opens up many possibilities for studies of the clinical effects of this form of energy, and, possibly, for resolving some of the mysteries and variability of both local and non-local biological effects.

Sun & Moon Simulators

ARTIFICIAL MOON BY CHINA

An artificial moon is a satellite put into a planet's orbit to reflect sunlight back to that planet. By 2022, China plans to have three artificial moons in orbit around the Earth. These will shine 8 times brighter than the natural moon.

Both NASA and the Chinese Space Agency have admitted, since before 2010, that they have launched simulated suns and moons. At sunset, many times, you can observe the sun simulator separated from the real sun, for those with eyes to see.

NASA Simulates the Sun's Power on Earth to Test Hardware Intended for Space 10.22.10

In the hostile environment of space, satellites could get burned by the ultra-hot sun in front of them and chilled by the frigid cold conditions of space behind them.

Researchers at NASA's Marshall Space Flight Center in Huntsville, Ala., are using their Solar Thermal Test Facility to simulate some of the harshest conditions space has to offer to learn what these extreme temperatures can do to flight hardware close to the sun. They're currently testing Strofio, a unique NASA instrument that will fly aboard an upcoming European Space Agency mission, in this facility to test the thermal balance before the instrument is on its way to Mercury.

The facility looks like it belongs in a galaxy far, far away. A two-story tall curved mirror – actually is made of 144 separate mirror segments, each hexagonally shaped and about 18 inches in diameter – forms the backbone of the facility.

About 50 yards away, sitting in a field, lies another mirror tilted at a slight angle. This secondary mirror reflects the sun towards the primary mirror, which captures the energy and then focuses inside a small vacuum chamber mounted in front of the mirror's focal point.

The giant wall of mirrors works by capturing the light from the sun and redirecting that energy to whatever happens to be sitting in the vacuum chamber. That superheats the instrument, allowing scientists to know how their hardware will behave as it nears the sun. Of course they can't use all 144 mirror segments at once – that would beam 5000 watts worth of energy onto whatever happens to be inside the vacuum chamber. For the Strofio tests, engineers will only need to partially uncover about 26 mirror segments. They'll reach temperatures hot enough to test their instrument, but not so high that they melt away their hard work.

But that's only half the equation. Thanks to the Southwest Research Institute, the NASA facility has installed a liquid nitrogen shroud on the inside of the vacuum chamber that will flow super-cold liquid nitrogen. That will allow engineers to chill the vacuum chamber to the freezing cold temperatures, just like those in deep space.

The Solar Thermal Test Facility's concentrator mirror is composed of 144 smaller hexagonal segments. When all the mirrors are fully uncovered, the mirror beams about 1,000,000 watts per square meter of solar energy intensity into the vacuum chamber at the focal point. (NASA/D. Oliver)

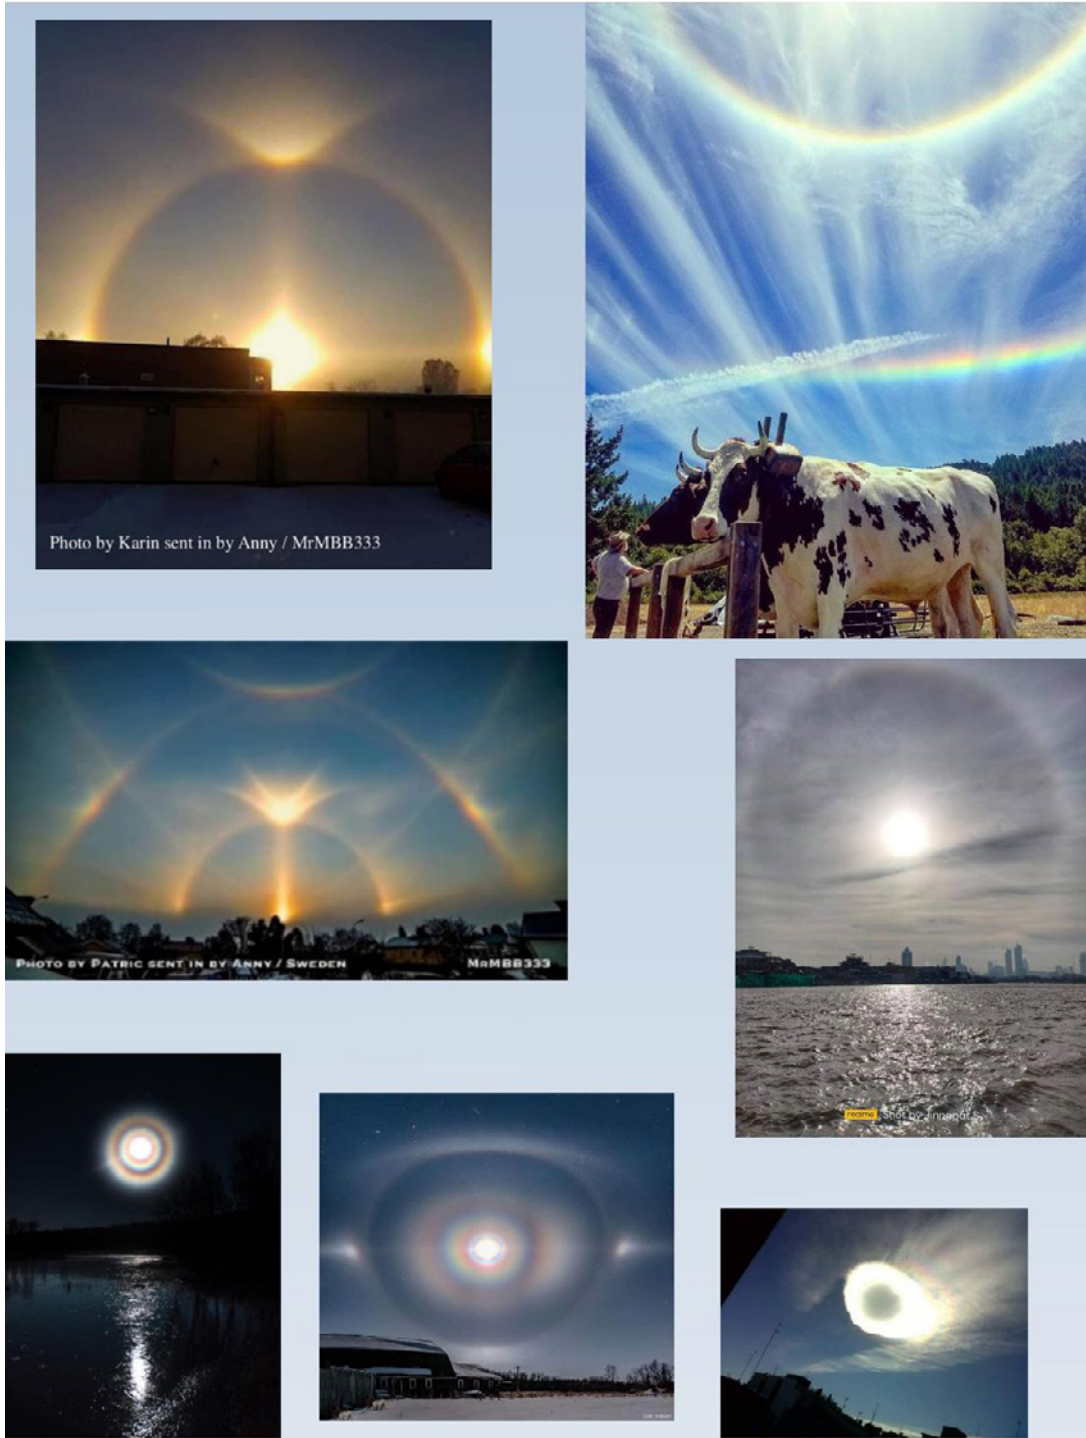

The instrument currently being tested only needs 14,700 watts per square meter intensity so the facility covers most of the mirrors, or those that appear white, only uncovering a few with holes, those that look glassy, to beam sunlight into the vacuum chamber. Normal solar intensity at the Marshall Center with no mirrors is 1000 watts per square meter. (NASA/D.

How are these pictures even possible if the Sun is said to be 93 million miles away? How can the sun reflect UP to shadow the plane in the clouds above is the Sun is BEHIND and above the clouds?

Wikipedia ~ The sun dog is a member of the family of halos caused by the refraction of sunlight by ice crystals in the atmosphere. Sun dogs typically appear as a pair of subtly colored patches of light, around 22° to the left and right of the Sun, and at the same altitude above the horizon as the Sun. They can be seen anywhere in the world during any season, but are not always obvious or bright. Sun dogs are best seen and most conspicuous when the *Sun is near the horizon*.

Land Based Air Modifiers/Modifryers

Since natural weather has been destroyed for decades, geoengineers manipulate all weather. This is a satellite images showing how ground based lasers are used to steer the weather across the USA Inc. Wet surface air coolers aka water vapor machines, are used on the ground to blow water vapors into the air to help create cloud condensation nuclei to precipitate weather around the world.

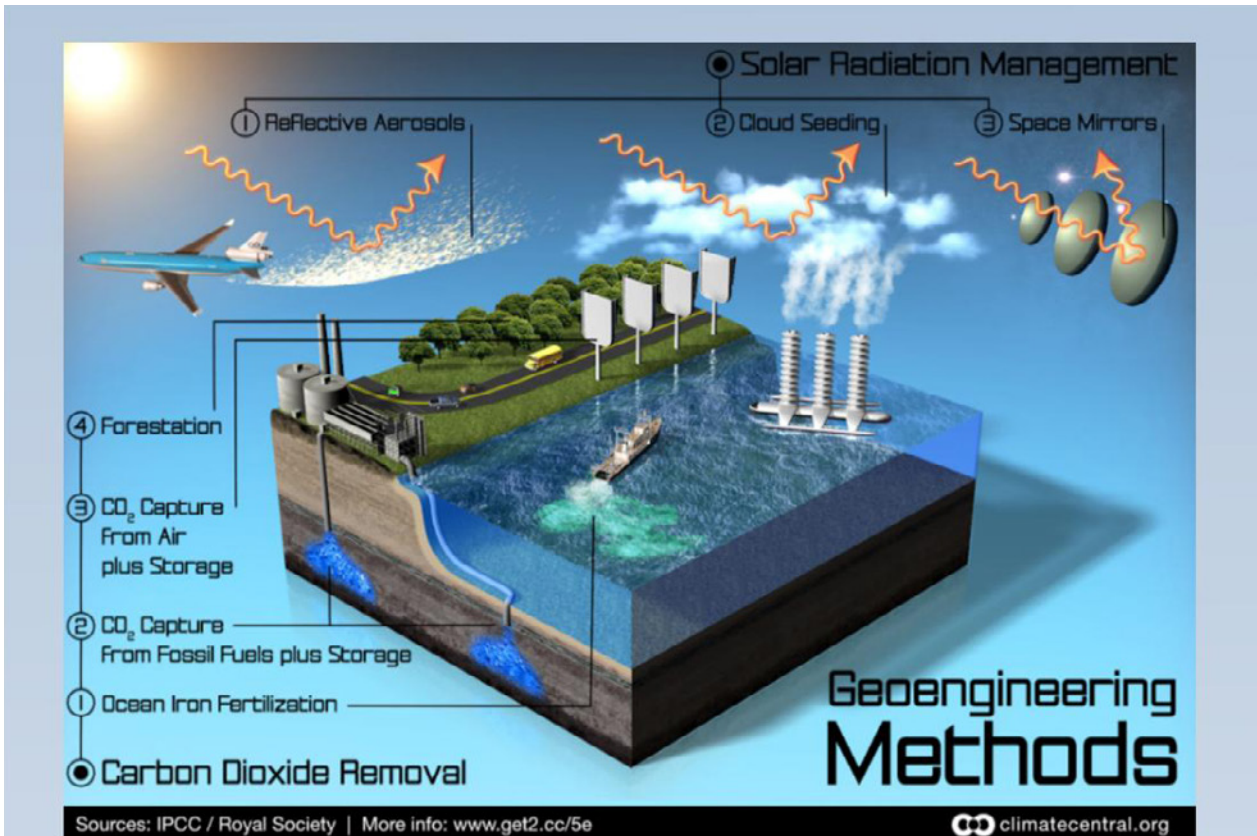

Nuclear power plants are water vapor creation machines tapping into underground primary water sources to send skyward to create weather.

Respected physicist, Dr. Michio Kaku, exposes the science of geo-engineering to the mainstream masses in a CBS interview.

“WE’RE FIRING TRILLION WATT LASERS INTO THE SKY”: TOP SCIENTIST ADMITS TO WEATHER MODIFICATION ON CBS

Ocean Based Weather Modifiers

Ocean Carbon Sequestration

(from 2012) Ocean fertilization by dumping iron (as powdered iron caliphate) or other nutrients (e.g. urea) into the ocean in areas with low biological productivity in order to stimulate phytoplankton growth. In theory, the resulting phytoplankton draw down atmospheric CO2 and then die, falling to the ocean bed and sequestering carbon. The machines, developed by a San Francisco-based research group called Silver Lining, turn seawater into tiny particles that can be shot up over 3,000 feet in the air. The particles increase the density of clouds by increasing the amount of nuclei contained within. Silver Lining's floating machines can suck up ten tons of water per second. "If all goes well", Silver Lining plans to test the process with 10 ships spread throughout 3800 square miles of ocean

~ <https://www.whoi.edu/oceanus/feature/fertilizing-the-ocean-with-iron/>

“Since 1993, 12 small-scale ocean experiments have shown that iron additions do indeed draw carbon into the ocean – though perhaps less efficiently or permanently than first thought. Scientists at the time agreed that disturbing the bottom rung of the marine food chain carried risks.

Twenty years on, Martin’s line is still viewed alternately as a boast or a quip; an opportunity too good to pass up or a misguided remedy doomed to backfire. Yet over the same period, unremitting increases in carbon emissions and mounting evidence of climate change have taken the debate beyond academic circles and into the free market.

Today, policymakers, investors, economists, environmentalists, and lawyers are taking notice of the idea. A handful of companies are planning a new round of larger experiments. The absence of clear regulations for either conducting experiments at sea or trading the results in “carbon offset” markets complicates the picture. But economists conclude that the planet’s growing urgency to solve its emissions problem will reward anyone who can make iron fertilization work. In past experiments “we were trying to answer the question, ‘how does the world work?’ – not ‘how do we make the world work for us?’ ” Kenneth Coale, the present-day director of Moss Landing Marine Lab, said recently. “They’re totally separate. We have not done the experiment to address the issues that we’re talking about today.”

Beyond the inefficiency of carbon sequestration, iron fertilization would likely cause other changes “downstream” of the ocean patches where iron was added. The huge green phytoplankton blooms would take up not just iron but other nutrients, too – nitrate, phosphate, and silica – essentially depleting nearby waters of the building blocks needed for plankton growth.

“You might make some of the ocean greener by iron enrichment, but you’re going to make a lot of the ocean bluer,” said Robert Anderson, senior scholar at Lamont-Doherty Earth Observatory. Other participants at the WHOI conference – John Cullen, a biological oceanographer at Dalhousie University in Canada, Andrew Watson, a biogeochemist at the University of East Anglia, U.K., and Jorge Sarmiento, a modeler at Princeton’s Geophysical Fluid Dynamics Laboratory – pointed out several other ecological concerns.

Large-scale iron fertilization, in altering the base of the food chain, might lead to undesirable changes in fish stocks and whale populations. Increased decomposition of sinking organic matter could deprive deep waters of oxygen or produce other greenhouse gases more potent than carbon dioxide, such as nitrous oxide and methane. The plankton-choked surface waters could block sunlight needed by deeper corals, or warm the surface layer and change circulation patterns.

At the bottom right, there's an 'OPINION' section.

And this creates the “Atmospheric Rivers”

Atmospheric rivers are sold to us by programmed climatologists that are long, flowing regions of the atmosphere that carry water vapor through the sky. They are about 250 to 375 miles wide and can be more than 1,000 miles long. Rivers on land generally flow downhill; atmospheric rivers flow in the direction of moving air created by weather systems.

Here you can see the concentrated jet stream which created the 2nd greatest rainfall in California history directly after a record 5 year drought. All weather is managed and manipulated. ALL weather. You can clearly see the many scalar waves in the satellite image below.

The science behind atmospheric rivers

An atmospheric river (AR) is a flowing column of condensed water vapor in the atmosphere responsible for producing significant levels of rain and snow, especially in the Western United States. When ARs move inland and sweep over the mountains, the water vapor rises and cools to create heavy precipitation. Though many ARs are weak systems that simply provide beneficial rain or snow, some of the larger, more powerful ARs can create extreme rainfall and floods capable of disrupting travel, inducing mudslides and causing catastrophic damage to life and property. Visit www.research.noaa.gov to learn more.

A strong AR transports an amount of water vapor roughly equivalent to 7.5–15 times the average flow of water at the mouth of the Mississippi River.

ARs are a primary feature in the entire global water cycle and are tied closely to both water supply and flood risks, particularly in the Western U.S.

On average, about 30–50% of annual precipitation on the West Coast occurs in just a few AR events and contributes to the water supply — and flooding risk.

ARs move with the weather and are present somewhere on Earth at any given time.

ARs are approximately 250–375 miles wide on average.

Scientists' improved understanding of ARs has come from roughly a decade of scientific studies that use observations from satellites, radar and aircraft as well as the latest numerical weather models. More studies are underway, including a 2015 scientific mission that added data from instruments aboard a NOAA ship.

Air Drone Delivery Systems

During the Fall of 2017 in Northern California over 80 fire strikes occurred throughout the region over just 3 days with no cause for these “new abnormal” fires that were created by drone strikes and underground Ultra Low Frequency lightning strikes from below ground. Many, including myself, witnessed blue laser strikes from the sky during this time.

Directed Energy Weapons were confirmed to be used on the World Trade Center as well as being reported now worldwide. There are many camouflaged drones in the sky that are used on the attacks on all Earth Creatures and lands.

Jackie via MrMBB333

Drones are also used to harvest, and transfer energy. Can you spot the drones?

Chem Fog Camouflage

There were 250 Fires, in 9 Counties, started in Northern California in One Night on Oct 7, 2017.

Directly after the Paradise fire attacks on November 6th, allegeded 'smoke' from the Paradise fires buried all of Northern California under a mass chem fog over 1500 ft. thick where visibility was limited to only a few feet. I flew in a plane through the chem fog and the demarcation line was exactly at the CA border Nevada and Oregon, like it was all designed and planned.

In the image to the right you can see the chem fog being laid out from the Bear Fire. Look at the size of Lake Tahoe directly above the large plume. Tahoe is 11 miles wide by 22 miles long. So look how deep and high the shadows are coming off the chem fog. The wall is miles high.

5.2.2 Airborne LiDAR data (Digital Elevation Model, vegetation structure)

LiDAR (Light Detection and Ranging) instruments collect data by emitting, and receiving the reflected pulses, of **laser** light to measure distance to targets. LiDAR systems that operate in commercial terrain mapping environments are typically operated from aircraft, and are capable of recording multiple discrete targets hits for each pulse, with modern systems able to emit 50,000–100,000 pulses per second. Each pulse has an associated GPS location and time associated with it. Data is collected for each flight overpass of the target area, and then flight passes are registered to GPS data and combined into a complete LiDAR dataset. LiDAR data provide a structural assessment of the terrain, as they are able to exploit gaps in vegetation cover to provide information on the ground surface beneath the vegetation, and information on the structure of the vegetation itself.

Figure 7 shows a transect of LiDAR data, and the distribution of the points in an example area.

LIDAR Seeing Through the Fogs, Clouds and Smoke

Spearheaded by Associate Professor of Meteorology and Climate Science Craig Clements, the Fire Weather Research Laboratory is the only team of its kind in the United States. San Jose State U Professor Craig Clements was set up with his LIDAR equipped truck driving all the way from San Jose arriving in Paradise by before 9 am, the morning the fires broke out and became “Hell in Paradise”. This is according to his account. His “Wildfire Meteorology” equipment at onset of the morning of the Paradise fires was used to see through the fires

How did he know their would be fires and drive and be able to get there from San Jose with his equipment??

This is also first person admission that lasers (LIDAR) was used during the day of the fire incident! This alone proves premeditation!!! Tens of thousands died that were unreported from this one event alone.

Wildfire meteorology is a relatively new field,” Clements says. “Now that these fires are causing more damage, we need a better fundamental understanding of fire behavior, particularly in mountainous terrains. We don’t know how winds around wildfires work. With better observations, we can better predict fire spread in the changing climate.

During a fire incident, they use LiDAR, a tool that detects material such as smoke or ash by beaming light into the atmosphere. By attaching LiDAR to bed of the research truck, Clements and his team have adapted a unique technique for observing the dynamics of the smoke plume while the LiDAR scans, collecting information on plume height, location of atmospheric materials and wind speed. As of early 2019, Clements had obtained additional grant funding to purchase radar. <http://blogs.sjsu.edu/wsq/2019/05/06/on-fire/>

On Fire

By Julia Halprin Jackson

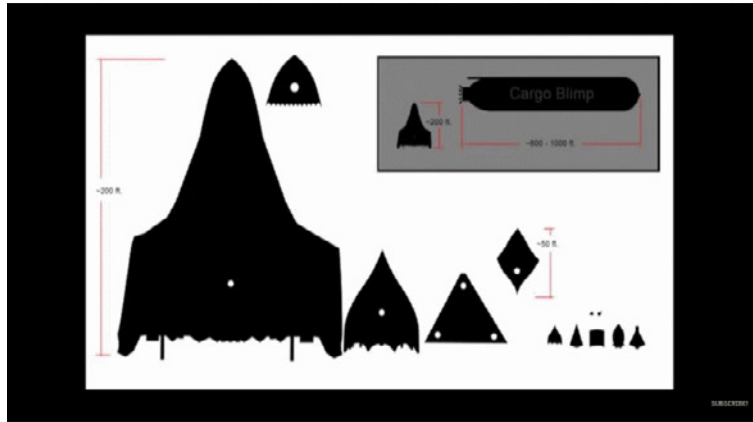

The only team of its kind in the United States, Craig Clements' Fire Weather Research Laboratory studies and decodes wildfire behavior to improve fire management and prevention.

Photo courtesy of the Fire Weather Research Lab.

In November 2018, a catastrophic wildfire ravaged the mountainous town of Paradise, killing 85 people and destroying entire neighborhoods. While firefighters, first responders and local officials worked to evacuate survivors and salvage the remains, a group of SJSU scientists gathered data using meteorological instruments on the back of a research truck one hundred feet from the flames of the deadliest wildfire in California's history.

These are different types of drones identified in the skies over the years. Most are camouflaged or openly sold as “star link” satellites for ‘better internet connections’.

Space Ladders

Carbon Graphene Oxide Nano tube “ladders” are used to resupply the drones above. Popularised by Arthur C Clarke, the concept of an elevator from the Earth to orbit has been around for more than a century. An anchor and Earth’s gravity at the lower end, and a counterweight and centrifugal force at the top end keep the elevator’s “cable” taut and stationary over ground station. Robotic ‘climbers’ then pull themselves up the ribbon from the surface, through the stratosphere and out into space, potentially powered by lasers.

ANY EXPLANATION ON THIS?

Properties of Carbon nanotubes

- the highest elastic module, and mechanical strength that is approximately 200 times stronger than steel.
- novel electronic properties.
- high thermal conductivity.
- excellent chemical and thermal stability.
- promising electron field emission properties.
- high chemical (such as lithium) storage capacity.

Solaren Corp is creating energy from the sky using artificial satellites where the RF frequency is then beamed down to solar collectives. The movie *Bladerunner 2049* opens with a massive solar collective farm below. They have also contracted with PG&E since 2009 to provide free energy to the ground from the solar collectives.

California's new solar power plant is actually a death ray that's incinerating birds mid-flight

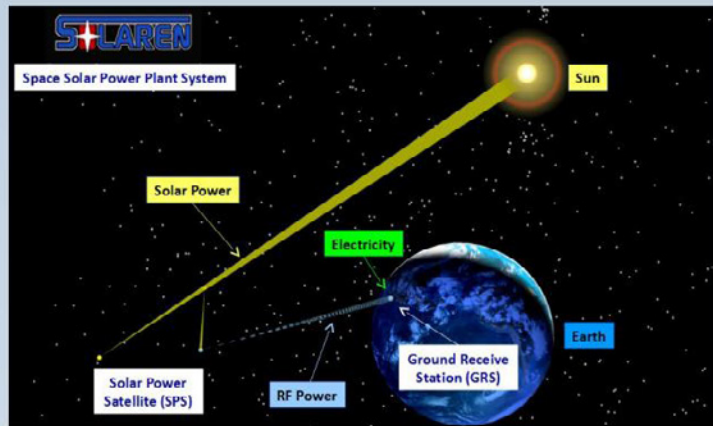

By Sebastian Anthony on August 20, 2014 at 9:35 am | [211 Comments](#)

EXTREME TECH Search Extremetech

Computing Phones Cars Gaming Science Extreme D

What spans 1,600 hectares, cost \$2.2 billion to build, and potentially fries hundreds of thousands of birds per year? The new BrightSource solar power plant in California's Mojave Dessert. The plant, which uses some 350,000 garage-door-sized mirrors to focus sunlight on three boiler towers, also acts as a death ray, instantly igniting and killing any wildlife that happen to fly through the intense beam of light. Wildlife officials are concerned that this concentrated solar power plant, and others like it, could turn into "mega-trap" that decimates the ecosystem — first attracting insects, and then attracting birds that eat insects. BrightSource, in the mean time, is forging ahead with an even larger solar power plant that officials say could kill four times as many birds. Won't somebody stop these not-so-green nature-killing maniacs?

SOLAREN CORPORATION ANNOUNCES THE NEXT PHASE OF THEIR SPACE SOLAR DEVELOPMENT PROGRAM

June 8, 2016

MANHATTAN BEACH, June 8, 2016 – Solaren Corporation ("Solaren") has announced the next phase of its space solar power (SSP) plant development program – The Space Solar Engineering Design and Demonstration Phase.

This year, Solaren anticipates the completion of an investment round, which would fully fund our multi-million dollar SSP Engineering Design & Demonstration Phase. Key activities are to: 1) develop and optimize space qualified power components and measure power subsystem performance, 2) perform SSP Plant system design studies, 3) optimize the SSP plant design, and 4) generate design requirements and complete system Requirements Review (SRR).

Solaren has engineered zero emission electricity from space that is cost competitive with any terrestrial source of baseload electricity. Solaren will design, develop, integrate, test and certify Space Solar Power (SSP) plants for operations. In the coming decade, Solaren will perform unprecedented components, subsystems and systems testing, both on the ground and in space, to validate all aspects of our SSP Plants. The multi-billion dollar SSP development program culminates with the launch of the Solaren solar power satellites, operational certification of the SSP Ground Receive Station, and start of commercial operations and sales of electricity from our 250 MW SSP Plant.

About Solaren

Headquartered in Manhattan Beach, California, Solaren is an energy and aerospace company that is principally engaged in the research, design, development

SSP Plant Operations – The start of SSP Plant Commercial Operations begins after SSP Systems has checked out and certified the SSP Plant. Solaren SSP Plant Operations generates power via Solar Power Satellites and safely delivers that power to the appropriate Ground Receive Station for direct conversion to electricity, and transmission to the customer's delivery point. SSP Plant Operations maintains and operates 24/7 the SSP Plant system and continuously manages the delivery of electricity to our customers.

Molten salt receiver is state-of-the-art CSP technology, enabling capturing and storing of the sun's energy, providing reliable electricity on demand.

What is Space-Based Solar Power (SSP)?

- Capture solar energy using satellite
- Convert electricity to microwave frequency
- Beam to Earth using transmitter
- Collect and convert back to electricity using rectenna

Rodenbeck, C.T. and K. Cheng. IEEE Antennas and Propagation Magazine, 2006, 47(1): p. 67-72.

Chapter 7

Weather Wars

“We have to go beyond that and we now have to intervene in the climate.”

Professor Boyd recently co-chaired a working group for the UN advisory organisation, Group of Experts on the Scientific Aspects of Marine Environmental Protection (GESAMP) that reviewed 27 potential marine geoengineering techniques that had been studied or modelled to varying degrees worldwide.

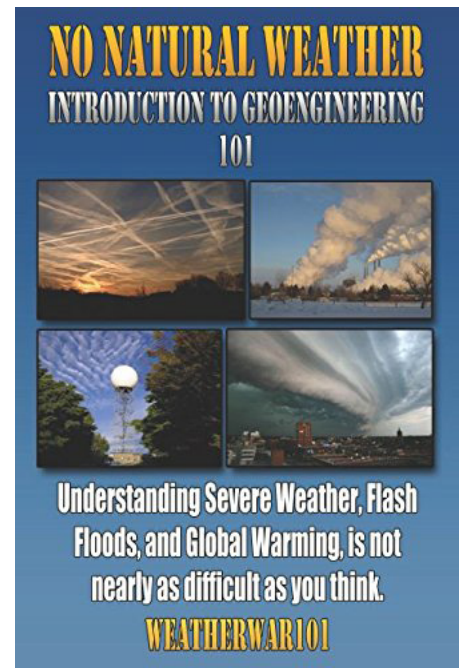

The group particularly focused on:

- Iron fertilization across 10 per cent of the Earth’s oceans by utilising every merchant ship in the world
- Adding lime to 10 per cent of the oceans to enhance alkalinity, increase CO₂ uptake and counter seawater acidity
- Drawing up cool, nutrient-rich water from the depths with large pipes to create an artificial upwelling that provokes algal blooms while also cooling the ocean’s surface
- Injecting liquified CO₂ into the seabed in depressions and trenches where it can be stored for 1,000 years
- Increasing the ocean’s reflectivity by drawing up cold water to increase Arctic ice thickness, or by adding foams, micro-bubbles or reflective particles to the surface
- Brightening marine clouds by spraying fine seawater into low lying stratocumulus clouds to increase their reflectivity and reduce surface temperatures
- Farming seaweed on a large scale before entombing it deep in the ocean to sequester its carbon, or process it for biofuels

In short, the group found a lot of potential. But more research, modelling and pilot programs are required, especially in consideration of the massive scales required.

“What we are trying to do now is put some incentives out there, create some of these models for feedback,” Professor Boyd said.

“But right now I can’t see any one of them sticking out head-and-shoulders above the rest.”

Boxing the Hurricane

Air Force Procedure for Tracking Tropical Storms

BEGINNING with the season of 1948, the Air Weather Service "Hurricane Hunters" of the 373rd Reconnaissance Squadron, Kindley AFB, Bermuda, adopted a new "boxing" system for penetrating hurricanes. This method, consisting of making certain measurements and computations from positions along the storm's outer edge, has made it unnecessary for the huge RB-29's and their crews to make the hazardous flight into the eye of a hurricane in order to determine its position and intensity.

In the "boxing" procedure, the storm area is approached on a track leading directly toward the predicted position of the storm center. This track is maintained into a full cross wind from the left (in the Northern Hemisphere, hurricane winds blow in a counterclockwise direction) until winds of hurricane force (75 miles per hour) are met. The position at which hurricane winds are encountered is the midpoint of the base side of a square or rectangular pattern to be flown around the storm. At this point a new track,

Hurricane and tornado control device

Abstract

A method is disclosed for affecting the formation and/or direction of a low atmospheric weather system. Audio generators are positioned to project sound waves toward a peripheral area of a weather system. The sound waves are generated at a frequency to affect the formation of the weather system in a manner to disrupt, enhance or direct the formation. The sound waves can also be projected in a manner to cause the system to produce rain.

Hurricane Steering, Management and Control

I personally traveled down to Houston 3 weeks after Hurricane Harvey hit lower Texas.

I raised over \$10,000 which I handed out to the souls who had their lives uprooted and were living in hotels provided by the government since their homes were flooded.

Wikipedia~ **Hurricane Harvey** was a devastating Category 4 hurricane that made landfall on Texas and Louisiana in August 2017, causing catastrophic flooding and more than 100 deaths. It is tied with 2005's Hurricane Katrina as the costliest tropical cyclone on record, inflicting \$125 billion in damage, primarily from catastrophic rainfall-triggered flooding in the Houston metropolitan area and Southeast Texas; this made the storm the costliest natural disaster recorded in Texas at the time.

It was the first major hurricane to make landfall in the United States since Wilma in 2005, ending a record 12-year span in which no hurricanes made landfall at the intensity of a major hurricane throughout the country. In a four-day period, many areas received more than **40 inches of rain** as the system slowly meandered over eastern Texas and adjacent waters, causing unprecedented flooding. With peak accumulations of 60.58 in Nederland, Texas, Harvey was the wettest tropical cyclone on record in the United States. The resulting floods inundated hundreds of thousands of homes, which displaced more than 30,000 people and prompted more than 17,000 rescues.

I met and interviewed over 30 people and to a person they all said this “was not a hurricane event”. A category 4 storm had been predicted and broadcast nationally to hit Houston for 10 days and the day before the event, the storm was downgraded to a ‘tropical’ storm, so everyone stayed in place. That night “the heavens just opened up” and “there was NO WIND”. Rain just poured and many had to evacuate and many were only saved by citizen militia’s like the “Cajun Army” who came with boats to rescue them.

To a person, they said the real disasters occurred 3 days later when they opened up the dams above Houston and flooded out the people again! You tube channel, “Showmebaby” was there as well and reported being led into Port Douglas to help rescue people by the government, then the government abandoned them when the dam was flooded. Showmebaby reported seeing bodies floating in the gulf with bullet holes in them and a FEMA prison barge parked at the port as well. The US government deliberately abandoned their people at their greatest time of need.

This was clearly a manufacture weather ‘event’ just like Hurricane Katrina where National Guard went door to door to confiscate guns from home owners protecting their homes.

I snuck into a FEMA “holding” facility for those displaced by the weaponized Hurricane Katrina. I met Clarence (above) who had just returned from being sent to Dallas, Texas to a holding facility and then returned to this FEMA camp where I interviewed him. He had no idea where he was, had no money, and his home was flooded. FEMA would not let him leave the facility and his whereabouts thereafter is unknown. This could happen to anyone. Be prepared and do not submit to FEMA.

American Red Cross Fails to Give Hurricane Harvey Victims Promised Aid

I had the honor to meet John Lord (below), a 20 yr. retired Fire Captain in Northern California a few months after the Directed Energy attacks in the Fall of 2017. He was the first professional to call out b.s. on the 'official story' that Pacific Gas and Electric power lines had caused dozens of spontaneous fires along with another 20 yr. Fire captain, Matt Dankin.

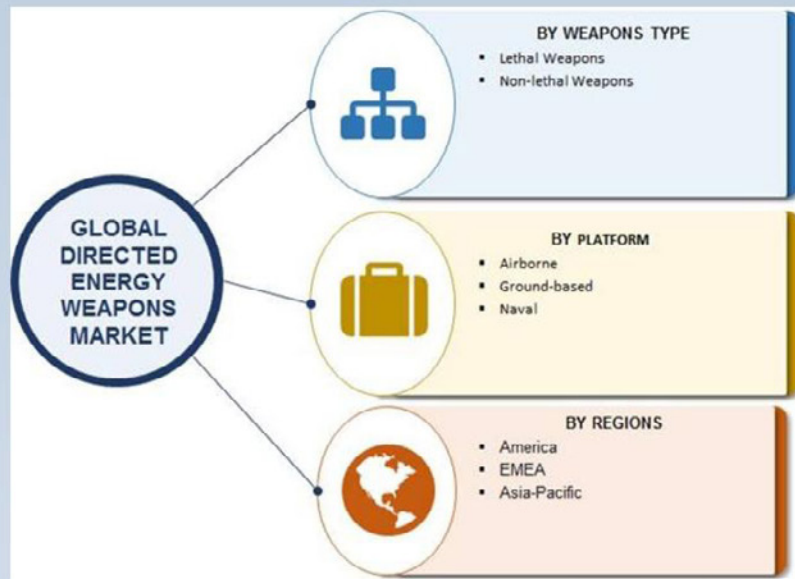

Major whorporate news outlets promoted the Paradise fires as "Hell on Earth". Tens of thousands died from these attacks as people in Paradise were prevented from leaving their homes the day the fires began. The fires moved at speeds of 205 mph, according to Fire Chief, Ken Pimlot and came from the East to West. Never before seen speeds and winds that are impossible given the 12,000 ft. Sierra Nevada range to block such activities.

I posted over 90 videos under the "Paradise Lost" series on my you tube channel "Aplane-truth3" for all to learn and understand better the mass murder that occurred and the suffering still going on to this day by the survivors.

Had to be DEW! 3,000 pound cars flipped onto their roofs! Partially melted cars. Ballfields cut with laser like precision. Homes torched while trees remain. Huge laser like potholes into the ground up to several feet.

Chapter 8
Lightning Energy Harvesting

Harvesting Lightning for Stored Energy Lightning is a giant spark of electricity in the atmosphere between clouds, the air, or the ground. In the early stages of development, air acts as an insulator between the positive and negative charges in the cloud and between the cloud and the ground. When the opposite charges build up enough, this insulating capacity of the air brakes down and there is a rapid discharge of electricity that we know as lightning. The flash of lightning temporarily equalizes the charged regions in the atmosphere until the opposite charges build up again. A channel of negatively charged ions surge toward the ground in very distinct steps.

This is called a stepped leader. * As the stepped leader (and its various branches) move toward the ground, it attracts streamers of positive charge. * The electrical potential of the stepped leader connects to the ground, tree, building, or whatever is available in the pathway. The negative charge starts to flow down the pathway. Chapter 15: Free Energy For Centuries; But Not For You 323 * A return stroke explodes “up” the pathway or channel, and this is what we actually see as the lightning stroke. It happens so fast that you may not easily discern the direction of propagation. If there is enough charge left in the cloud, subsequent dart leaders can use the same pathway created by the initial stepped leader. The return strokes associated with dart leaders are why lightning seems to flicker. From Wikipedia under “Harvesting Lightning” “To facilitate the harvesting of lightning, a laser-induced plasma channel (LIPC) could theoretically be used to allow lightning to strike in a predictable location. A high-power laser could be used to form an ionized column of gas, which would act as an atmospheric conduit for electrical discharges of lightning, which would direct the lightning to a ground station for harvesting.

Teramobile (T-Mobile), an international project initiated jointly by a French-German collaboration of CNRS (France) and DFG (Germany), has managed to trigger electric activity in thunderclouds by ultrashort lasers. A large amount of power is necessary, 5 terawatts, over the short pulse duration. For the moment, the application of laser-channeled lightning is to use energy to divert the lightning and prevent damage instead of harvesting the lightning energy. According to Martin A. Uman, co-director of the Lightning Research Laboratory at the University of Florida and a leading authority on lightning, a single lightning strike, while fast and bright, contains very little energy, and dozens of lightning towers like those used in the system tested by AEHI would be needed to operate five 100-watt light bulbs for the course of a year.

When interviewed by The New York Times, he stated that the energy in a thunderstorm is comparable to that of an atomic bomb, but trying to harvest the energy of lightning from the ground is “hopeless”. Another major challenge when attempting to harvest energy from lightning is the impossibility of predicting when and where thunderstorms will occur. Even during a storm, it is very difficult to tell where exactly lightning will strike”. The Lightning Antennas were set to ATTRACT energy not deflect it and are 5G Towers also energy collectors? Remember that Free Energy was developed by the Tartarians and Nikola Tesla furthered the understand over 100 years ago, yet we are not “allowed” these abundant free energy devices to this day.

Imagine a world where free energy was abundant and available to everyone! Where you could travel freely anywhere, at any time by boat, car or air. This was the world of the Tartarians because they had harnessed the Secrets of the Universe of Frequency, Energy and Vibration. Skyscrapers aka Energy Harvesters Worldwide. But this is the past.

Today the atmospheric energy is extracted by skyscrapers like the Petronas, Taipei, Burj Khalifa, by towers on top of hills, roofs of buildings or through Radio and TV broadcast towers” such as

Ostankino Tower, Oriental Pearl, Jin Mao, Shanghai or Tianjin. And this energy is no longer free or clean, besides being expensive. Skyscrapers are modern power plants and work in conjunction with metal structures of bridges whose iron is in contact with water and has spheres that may contain minicoils and mercury in the upper part.

The Empire State and the Manhattan Bridge were built by the Tartarians long before 1900. Just like the Tour Eiffel. By 1953, at least, the Invading Romanov's had built nothing in cities around the world. Just destroyed. All buildings erected until the 1950's belong to the Tartary civilization. It was only from the 1960's that poor and ugly buildings-crates of the new civilization would begin to be erected. Photographs that purport to show the construction of the Empire State Building are false and are nothing more than photomontages overlapping high quality glass negatives with photos of some wood boards and false workers in the foreground. Skyscrapers are modern powerhouses. When Tartarian plans to erect the Empire State Building began to be drawn, the goal was to capture enough energy to illuminate Lake Ontario, Vermont, Buffalo, Albany, Pennsylvania, Massachusetts, and Connecticut. This objective is registered on the aluminum plate in the hall of the building built by the Tartary civilization. Buildings built by Tartaria around the world continue to draw atmospheric energy to our Controllers still to this day.

'It is fascinating that just above the surface of the ground to about 2 to 4 feet up there is a null of atmospheric frequencies that get stronger and stronger until at 9 to 15 feet above the surface they are extremely strong...'
- Professor Phillip Callahan.

Free Power For All Is Here Now Today's power is locally generated with the power stations you see below in nearly every city and town somewhere. This is what they hide. We are charged for literally creating energy out of thin air.

A magnetic field pulls and pushes electrons in certain objects closer to them, making them move. Metals like copper have electrons that are easily moved from their orbits. If you move a magnet quickly through a coil of copper wire, the electrons will move and this produces electricity.

"Coils" can still be seen at the top of the power supply centers in India. Manufactured History and Invented Religions call these energy factories as "temples". The Prambanan temple complex in Indonesia had originally 240 estações de energia in a concentric mandala layout. The star fortress in Haiti, Taj Mahal, Hagia Sofia, Pantheon, Crystal Palace or Tower of Jewels were production plants and distribution of atmospheric energy, as well as thousands of cathedrals, temples and palaces around the world.

In the United States, Woolsey Hall, which now belongs to Yale University, seems to have been a former power plant. It houses one of the most famous symphonic organs in the world. The organ sound, associated with the resonance of electromagnetic energy inside power plants, could bring about physical and spiritual transformations. But this is the past.

Skyscrapers are modern powerhouses. When plans to erect the Empire State Building in 1929 began to be drawn, the goal was to capture enough energy to illuminate Lake Ontario, Vermont, Buffalo, Albany, Pennsylvania, Massachusetts, and Connecticut. This objective is registered on the aluminum plate in the hall of the building. In the Chrysler building, Wikipedia expressly points out to 16 points on the 24th floor, which it calls "pineapples", where the mercury would be

stored. Buildings around the world continue to produce their own energy and even Las Vegas has a dome over the Bellagio building, which produces energy for 4,000 apartments and a fountain with dancing waters, synchronized with lights and music.

Central power stations and towers are built in granite and geo-polymeric concrete because they become more resilient over time and have the superconducting quartz crystal in its composition. Electromagnetism produces gigantic invisible "waves" of energy. Transmitting towers receive and emit the electric field to considerable distances.

To transmit wireless electricity as in the remote past, to more and more extensive regions and with more users, the towers are getting higher. Towers like these can extract atmospheric energy to feed entire countries. It is

possible that one of the reasons for the WTC's demolition in 9/11 was the need to expand energy extraction technology. Everyone remembers the huge antenna needle on top of one of the towers being sprayed into the air. The towers of the WTC were obsolete and so they fell to the ground. The demolition dust caused 70,000 cases of cancer. Insurers paid \$ 4.55 billion for the old towers' pulverization. The new antenna looks much more powerful. Throughout the world the technology of energy extraction through the atmosphere still works perfectly in castles, buildings, palaces, greenhouses, kiosks, fountains, mosques, fortresses, towers and cathedrals that kept the old technological apparatus intact. This apparatus includes elaborate roof grids and small window-like openings, metal ornaments in the four corners of buildings, pointed antennae with balls, metals embedded in masonry in geopolymeric concrete, spires, roofs and copper ornaments and structural foundations in iron, among others. Just like in today's skyscrapers.

Since the beginning of civilization, world architecture is dedicated to extracting energy from the ether. The bastion forts (star fortress) destroyed by the "Twelve Olympians" were the first power plants. The world architecture for extraction of atmospheric energy through domes and towers is a product of the Aryan Tartar civilization. This architecture undergoes slight changes and influences according to the local culture but maintains the basic principles.

Counterfeit History has transformed powerful Tartary energy stations into "tombs" or temples. And royal palaces in mosques. Or destroyed them. After British set fire to Washington in 1812 and bankers took over the United States from 1913, the old Tatar power station near Central Park was turned into a mosque and baptized in Hebrew - the language created in the 19th century - as "God is with us ". And pyramid-shaped power stations were called mausoleums and "tombs" or hidden with vegetation like the dozens of Chinese pyramids. Africa, Asia, Europe and the Americas had the same architecture for the extraction of atmospheric energy.

Ottoman, Byzantine, Great Tartary or Ross Empire. Many names for a single high civilization that is present both in the throne hall of the Grand Kremlin Palace of Moscow as in the Library of Congress in Washington. Rare photographs show that in 1940 the atmospheric energy still worked openly in some places. Power plants have in their interior metal spheres where the "toroidal coil" works. Perhaps the mass dumper of the Taipei tower has this function. Modern towers are already built with the domes themselves and they are positioned below the pole that rises to the contact with the ether. A lookout can distract visitors' attention on the tower's true architectural significance. Not by chance, this metal sphere represents the favorite geometric object of Tesla, reports Wikipedia.

It is displayed in a museum in Belgrade with the ashes of the pseudo-inventor. The dark eminences that created *the Tesla myth*, like many others, have a great sense of humor. And they appreciate leaving evidence of their frauds in the most unforeseen places. The technology of electromagnetic energy extraction is the same to 7000 years as witnessed by the Gothic towers, 11th century Hindu and Chinese pagodas, the African clay mosque or the pinnacle studded with metal staples of the old "cathedral" of Salamanca of the 12th century, whose design is perfectly reproduced in the contemporary Jin Mao Tower in Shanghai.

Chapter 9

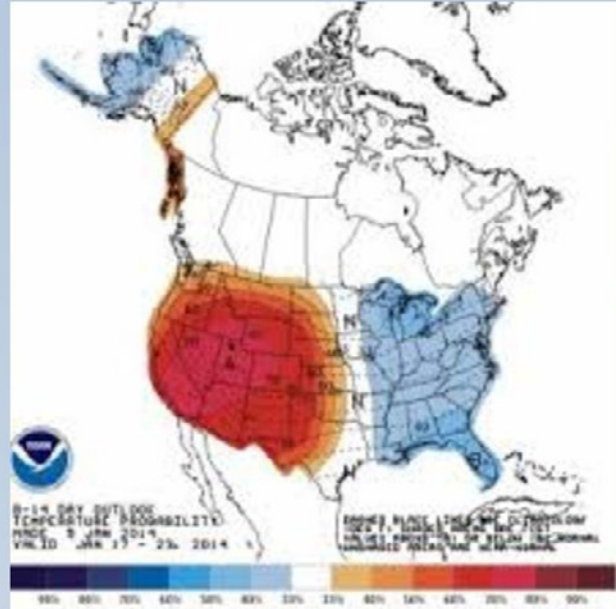

The Contrails Conspiracy and the Jokes on Us

The problem that most have with not acknowledging that we are all being sprayed daily like bugs is that they just don't want to believe it to be true. Talk about your ultimate "buzz kill". Yet the evidence is overwhelming and the sheeple will sleep on no matter what the evidence presented, has been my experience.

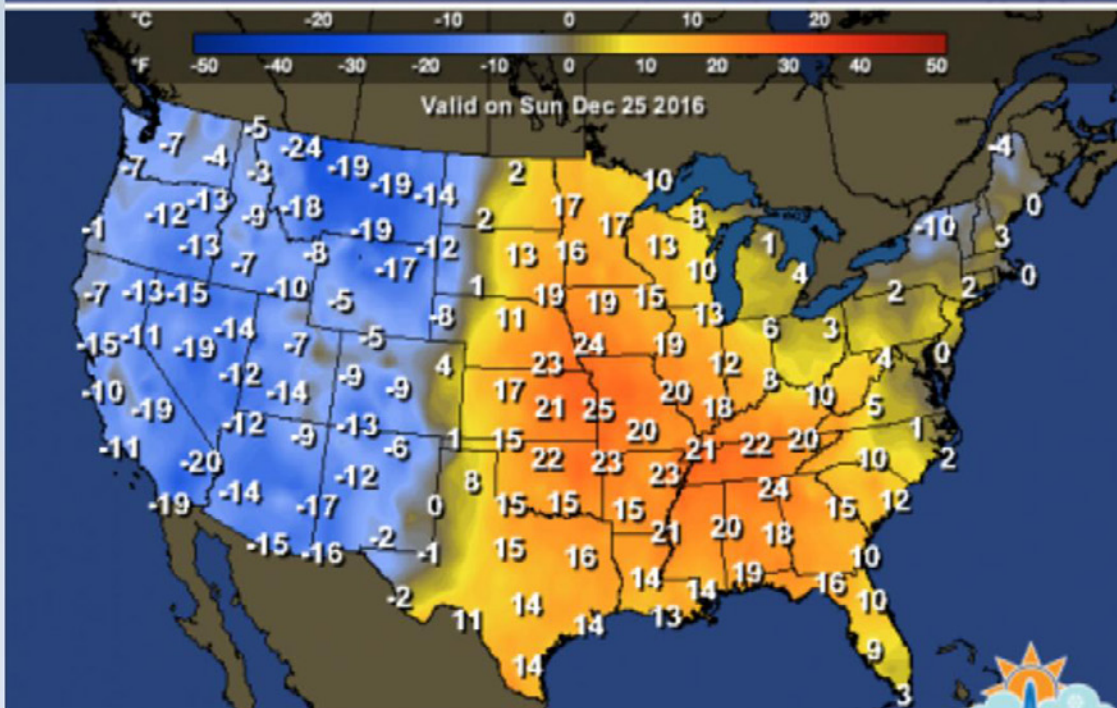

Does a meteorologist study “meteor’s” so why is a weatherman called a meteorologist ?

A weatherman is a programmer for the Controllers elite. Take a look at these two satellite images that totally negate the history of weather and jet streams. Like someone had drawn a line in the sand, yet few question the official narratives of such absurdities on its premise alone.

Chapter 10
Activists in Action

Since 2005 when I became aware of geoengineering of our skies, I have had the good fortune to meet many brave and speaking out truthers like Elana Freeland, John Graf, Michael Murphy, Rosalind Peterson, Suzanne Mayer, Mike Morales, Jim Lee and Onepacific Redwood.

They have recorded and shared the facts and the evidence based proof that our weather is being manipulated worldwide. Without their ground breaking work, we would not be as well informed and aware. I also share my book free in .pdf that can be found on the website "aplanetruth.info".

Those that are controlled opposition and cannot/should not be trusted are names like Dane Wigington at Geoengineeringwatch.org whose background is highly questionable as well as the likes of Matt Landman and Peter Kirby, a taxi driver book writer. None of these people support the real GE truther community and never have.

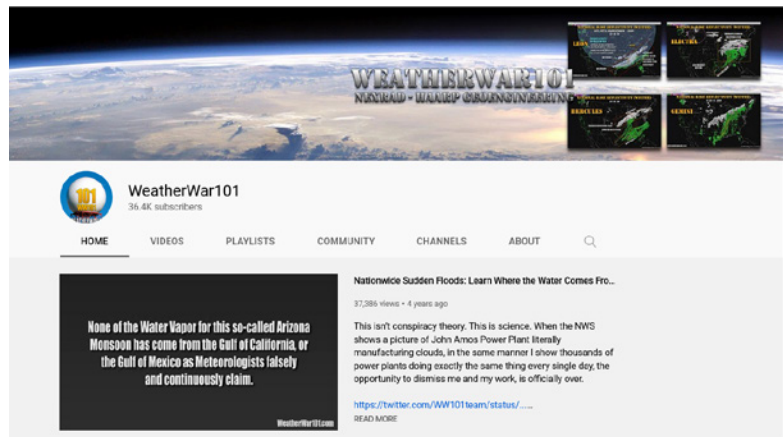

Chris Haskell Story - Final Chapter! 09/22/2018 Chemtrails / Geo-Engineering Activist

OPERATION INDIGO SKYFOLD: The Most Secret Covert Black Operation In World History

Chemtrail Pilot Blows The Lid Off Of OPERATION INDIGO SKYFOLD

Warrior for Clean Skies: Anti-Geoengineering Activist Rosalind Peterson's Environmental Legacy

Ms. Rosalind Peterson founded California Skywatch in 2002, when she began researching atmospheric testing and weather modification programs. The two websites are separate entities but are linked together by issues listed alphabetically in the "Categories" section.

In 1995, became a certified California United States Department of Agriculture (USDA), Farm Service Agency Agriculture Crop Loss Adjustor. She worked in more than ten counties throughout California. Many crop losses throughout the State can be attributed to weather related causes. She worked for five years for the Mendocino County Department of Agriculture as an Agriculture Technologist before being hired by the USDA Farm Service Agency in Mendocino County, California.

Ms. Peterson was a Keynote Speaker at the 60th Annual DPI/NGO Conference on Climate Change (New York on September 5-7, 2007.) She spoke about agriculture and the negative impacts of experimental weather modification programs on tree and plant health, along with other important issues. Since then she has presented her United Nations Power Point Presentation to colleges, universities and interested groups. She was also interviewed on numerous radio and television programs.

SUZANNE MAHER

| Suzanne Maher, right, and another activist promote Bye Bye Blue Sky

Conclusion

The “Climate Change” meme (when is the climate NOT changing?) was rolled out so that weather manipulation could be explained. Very soon, Geoengineering will become “normalized” as means to mitigate the manufactured “Climate change” events we see going on worldwide today.

The first steps toward any meaningful change involve 1) knowing and understanding the history of weather control, 2) Who, what and why they are spraying our skies and 3) possible steps and ACTIONS to mitigate, halt and cease such deadly operations.

A great many around the world are now looking up and knowing “something is messed up with the weather” but sadly with all the world distractions, that is as far as they research such a critical issue as weather manipulation by our Controllers.

All food grown, including organic, are compromised with the heavy metals and other toxins absorbed into the soil and into our food chains. The only answers are to grow all food in greenhouses and/or become a practicing “Breatharian” where food to live is not needed.

We cannot stop the mass inoculation of our skies at this time but we can become aware and we can share what we have learned and see for ourselves with our loved ones and with others. Hopefully, this book may help awaken more so meaningful change can occur before it is too late for all.

Appendix I

Heavy Metal Detoxification

Mineral Depletion

Our agricultural practices have been intended to create “fast food”. Food that grows fast in any conditions and produces huge yields with little nutrients. A bell pepper from 1930 compared to 2020 is ten times weaker in all its minerals. Soils are lacking in iodine, selenium, boron, magnesium and more. Most people today are deficient in magnesium which is critical for 90 chemically energetic processes in our body. It burns bright white and when it does it creates energy potentials in our cells. Without magnesium we develop Early signs of deficiency including loss of appetite, nausea, vomiting, fatigue, hypertension and weakness. As magnesium deficiency worsens, numbness, tingling, muscle contractions and cramps, seizures, personality changes, abnormal heart rhythms, and coronary spasms can occur. Magnesium relaxes smooth muscle tissue and is necessary for relaxation in our bodies. A simple pure Epsom salt bath mixed with sea salt for 20 minutes up to the neck in hot water once a week will be the best way to get such a critical mineral into the body. (orally it can cause diarrhea so transdermal is best).

Another important mineral is boron. It has been shown in medical studies to decrease urinary output of calcium in women up to 40 percent in one dose in osteoporosis patients. See Andreas Kalckers book *Salud Prohibidad* for more dosing information.

Iodine

Another critical mineral. It is responsible for the formation of ALL of our hormones and directly related to the thyroid and its imbalances. Halides like fluoride, chlorine and bromine also fit in iodine receptors and are stronger than iodine. They basically override the absorption of iodine and prevent hormones from being made efficiently. If you have thyroid or hormone issues. Remove toxic table salt from your diet immediately and read the book “Iodine Crisis” by Lynne Farrow. I do not recommend Iodoral however I do love her info and fully support nascent iodine supplements and or lugols iodine. To see if you are deficient do a simple skin test. Firstly, to see if you are allergic (it is rare but serious). If the patch is absorbed within 24 hours you have a need for more iodine in your body. Nascent iodine is best for beginners as a raindrop therapy and is

BORON MINERAL
ONLY KNOWN NANOBOT REPLICATION INHIBITOR

This mineral intentionally depleted from agricultural process.

BORAX: 1 pinch in 1 pint of distilled water 3 times a day

FDA max dose:
1/8 teaspoon per 100 lbs body weight.
1/4 teaspoon per 200 lbs body weight.

NANO DETOX BATH:
1 Cup Baking Soda
1 Cup Epsom Salt
1 Cup 20 Mule Team Borax
1 Cup Pink Himalayan Sea Salt or Redman's Salt.

BENEFITS:
Arthritis
Hormone Balance
Decalcify Pineal Gland
Improved Cell Function
Absorption of Minerals
Improved Wound Healing
Encourages Proper pH: (Cancer can't live in an alkaline environment)
Healthy Blood Sugar
Detoxifies the Liver
Helps the Heart

NEVER use white depleted-minerals table salt for any reason.
SOAK AS LONG AS YOU CAN.

Candida is an always-present fungus in the human body there to help decompose the body after death. Many suffer from it's overgrowth:

COMMON CANDIDA SYMPTOMS:

Fatigue	Thrush
Brain fog	Joint pain
Digestive issues	Mild depression
Sinus infections	Urinary tract infections
Recurring yeast infection	Other fungal infections.

BORAX detoxes Fluoride from your body and brain.
Raises your pH level from acid to alkaline.
Cancer/Candida/Fungus/Nanobots cannot survive in a high alkaline pH environment.

safe for vulnerable populations. Lugols is stronger and would be a step up after a year of using nascent iodine. One drop in water on an empty stomach, early morning rising. Taken away from vitamin C as iodine will lose its antimicrobial abilities. Usually a two-hour window is sufficient. IOSAT tablets are also not a bad idea to have in an emergency kit. Especially anyone who works in nuclear energy careers.

The same company that makes magnesium also sells the iodine. Borax can be purchased online or at your local supermarket.

Heavy Metal Detox Foods

This is an excerpt from my book, “Geoengineering aka Chemtrails”. Due to ever constant aerosol spraying of toxins from the air, we are almost daily ingesting nanoparticulate heavy metals. These superfoods will help lift and detox out of your system.

1. Spirulina is an edible blue-green algae. It is known for its distinctive green color and strong odor and delivers a strong dose of protein, all eight of the essential amino acids, iron, folic acid, B vitamins, selenium and manganese, resulting in strong *therapeutic benefits*. Spirulina can be effective in removing heavy metals from the nervous system and the liver.

2. Chlorella is a solid green-colored form of algae. Although it is a little harder to digest than spirulina, *chlorella is known to be effective in removing heavy metals* for just this reason. Chlorella’s cell walls are very tough and often cannot be fully digested, and it is these cell walls that bind to toxins in your body in order to eliminate them.

3. Atlantic dulse is edible seaweed that binds to metals such as aluminum (which is extremely prevalent in the food industry), mercury, lead, copper and nickel. This seaweed works in the digestive tract all the way through the colon to seek out and bind with toxic heavy metals, without releasing them back into the body.

4. Barley grass juice powder is not a very common food, but it does help address heavy metals toxicity in the various parts of the digestive system and the reproductive organs. **If coupled with spirulina, barley grass juice powder can be even more effective.**

5. Edible wild plants dandelion and milk thistle both cleanse the blood vessels and improve the functionality of the liver, which is an important organ when it comes to eliminating impurities from the body.

6. Ginger is one of the healthiest plants on Earth. In addition to improving digestion and reducing inflammation in the body, ginger root supports kidney function. The kidneys play an important role in the body’s elimination process and are often one of the first targets of heavy metals toxicity, so they need ginger’s extra power boost.

7. Artichokes: Artichokes help the liver function at its best, which in turn will help your body purge itself of toxins and other things it doesn’t need to survive. It ups the liver’s production of bile, and since bile helps break down foods which helps your body use the nutrients inside them, an increase in bile production is typically a good thing.

8. Organic Apples: Apples are full of wonderful nutrients. You get fiber, vitamins, minerals and many beneficial phytochemicals such as D-Glucarate, flavonoids and terpenoids. All of these

substances are used in the detox process. One flavonoid, Phlorizidin (phlorizin), is thought to help stimulate bile production which helps with detox as the liver gets rid of some toxins through the bile. Apples are also a good source of the soluble fiber pectin, which can help detox metals and food additives from your body. It's best to eat only organic apples as the non-organic varieties are among the top 12 foods that have been found to contain the most pesticide residues. Organically produced apples also have a 15 percent higher antioxidant capacity than conventionally produced apples.

9. Almonds: Almonds are the best nut source of Vitamin E. In fact, just one ounce contains 7.3 mg of "alpha-tocopheral" vitamin E, the form of the vitamin the body prefers. They're also high in fiber, calcium, magnesium, and useable protein that helps stabilize blood sugar and remove impurities from the bowels.

10. Asparagus: Not only does asparagus help to detoxify the body, it can help you wage the anti-aging battle, protect you from getting cancer, help your heart to stay healthy, and is a general anti-inflammatory food. It's also known to help with liver drainage, which might sound like a bad thing, but since the liver is responsible for filtering out the toxic materials in the food and drinks we consume, anything that backs up its drainage is not doing you any favors. Asparagus also helps reduce risk of death from breast cancer and increase the odds of survival.

11. Avocados: This wonder fruit is packed with antioxidants, lowers cholesterol and dilates the blood vessels while blocking artery-destroying toxicity. Avocados contain a nutrient called glutathione, which blocks at least 30 different carcinogens while helping the liver detoxify synthetic chemicals. Researchers at the University of Michigan found that elderly people who had high levels of glutathione were healthier and less likely to suffer from arthritis. Consuming avocados is associated with better diet quality and nutrient intake level, lower intake of added sugars, lower body weight, BMI and waist circumferences, higher "good cholesterol" levels and lower metabolic syndrome risk.

12. Basil: Basil has anti-bacterial properties, and it's full of antioxidants to protect the liver. The active ingredients are terpenoids. It is also wonderful for digestion and detoxification, too. It supports the functioning of the kidneys and also acts as a diuretic to help the body expel unwanted toxins. Basil has been known to have anti-ulcer qualities as well as antimicrobial effects that guard against bacteria, yeast, fungi and mold. Basil seed can also help with constipation. The anticancer properties of basil may also relate to its ability to influence viral infections.

13. Beets: A single serving of beets can do more for your health than most foods in the produce aisle. Not only can they boost your energy and lower your blood pressure, but eating beets in the long-term can help you fight cancer, reduce arthritic pain, boost your brain as well as help you lose weight. Beets contain a unique mixture of natural plant chemicals (phytochemicals) and minerals that make them superb fighters of infection, blood purifiers, and liver cleansers. They also help boost the body's cellular intake of oxygen, making beets excellent overall body cleansers. When you're detoxing, beets will help by making sure that the toxins you're getting out actually make it out of your body. Many detox cleanses go wrong when toxins are reintroduced to the body because they don't make it all the way out.

14. Blueberries: Blueberries contain natural aspirin that helps lessen the tissue-damaging effects of chronic inflammation, while lessening pain. Just 300 grams of blueberries protects against DNA damage. Blueberries also act as antibiotics by blocking bacteria in the urinary tract, thereby helping to prevent infections. They have antiviral properties and are loaded with super-detoxifying phytonutrients called proanthocyanidins.

15. Brazil Nuts: These tasty treats are packed with selenium, which is key to flushing mercury out of your body. The body uses selenium to make 'selenoproteins', which work like antioxidants preventing damage to cells and there is growing body of evidence to show it has a key role in our health. The consumption of brazil nuts has been found to be inversely associated with risk of pancreatic cancer, independent of other potential risk factors for pancreatic cancer.

16. Broccoli: Broccoli specifically works with the enzymes in your liver to turn toxins into something your body can eliminate easily. If you're stuck for ways on how to make broccoli taste better try dehydrating or consider eating it raw. But don't microwave it as this destroys both the nutritional and detox potential. Broccoli contains a very powerful anti-cancer, anti-diabetic and anti-microbial called sulforaphane which helps prevent cancer, diabetes, osteoporosis and allergies.

17. Broccoli Sprouts: Broccoli sprouts can actually provide more benefit than regular broccoli as they contain 20 times more sulforaphane. They contain important phytochemicals that are released when they're chopped, chewed, fermented, or digested. The substances are released then break down into sulforaphanes, indole-3-carbinol and D-glucarate, which all have a specific effect on detoxification. Add these to your salads and get creative with them in your meals. Researchers have found that an oral preparation made from broccoli sprouts trigger an increase in inflammation-fighting enzymes in the upper airways.

18. Cabbage: In addition to cleansing your liver, cabbage will also aid in helping you go to the bathroom, which in turn helps you expel the toxins, getting them out of your system so you can start fresh. It contains sulfur, which is essential when it comes to breaking down chemicals and removing them from your body. Along with other cold crops, cabbage is a source of indole-3-carbinol, a chemical that boosts DNA repair in cells and appears to block the growth of cancer cells.

19. Cilantro: Cilantro, also known as coriander, Chinese parsley or dhanian, contains an abundance of antioxidants. Cilantro helps mobilize mercury and other metals out of the tissue so it can attach to it other compounds and allow it to be excreted from the body. It also contains an antibacterial compound called dodecenal, which laboratory tests showed is twice as effective as the commonly used antibiotic drug gentamicin at killing Salmonella.

20. Cinnamon: The oils from cinnamon contain active components called cinnamaldehyde, cinnamyl acetate, and cinnamyl alcohol. Cinnamaldehyde has been well-researched for its effects on blood platelets helps prevent unwanted clumping of blood cells. Cinnamon's essential oils also qualify it as an "anti-microbial" food, and cinnamon has been studied for its ability to help stop the growth of bacteria as well as fungi, including the commonly problematic yeast Candida. Cinnamon's antimicrobial properties are so effective that recent research demonstrates this spice can be used as an alternative to traditional food preservatives. It has one of the highest antioxidant values of all foods and its use in medicine treats everything from nausea to menstruation and energy to diabetes.

21. Cranberries: While they are more popular as fruits that help prevent urinary tract infections, cranberries are antibacterial and are known to remove many different toxins from your body. Cranberries feature a rich profile of anti-inflammatory nutrients, provide immune and cardiovascular support, as well as promote digestive health. Consuming cranberry products has been associated with the prevention of urinary tract infections (UTIs) for over 100 years.

22. Fennel: The fennel bulb is high in fiber may also be useful in preventing colon cancer. In addition to its fiber, fennel is a very good source of folate, a B vitamin that is necessary for the conversion of a dangerous molecule called homocysteine into other, benign molecules. The vitamin C found in fennel bulb is directly antimicrobial and is also needed for the proper function of the immune system.

23. Flaxseeds: When detoxifying your body, it's essential to ensure toxins are eliminated properly. Ground flaxseeds provide a wonderful source of fiber that helps to bind and flush toxins from the intestinal tract. They're also a great source of health promoting omega 3 oils. Try consuming two tablespoons of ground flaxseeds in lemon water every morning. University of Copenhagen researchers report that flax fiber suppresses appetite and helps support weight loss. Men should be cautious when consuming flax as the lignans are similar to the female hormone estrogen as can cause problems for some men.

24. Garlic: Many detox diets list garlic as a crucial piece of the puzzle. The reason is that garlic boosts the immune system as well as helping out the liver. One good thing about garlic is that you can up your intake without having to worry if your body is going to get used to it or build up a resistance. Sulfur is found in high quantities in garlic — which makes it a good detox food and its antibiotic properties heal your body. Garlic is proven to be 100 times more effective than antibiotics and working in a fraction of the time.

25. Goji Berries: Replace raisins with nutrient-dense Goji berries to boost your vitamin C and beta-carotene intake. Gram for gram, goji berries pack more vitamin C than oranges and more beta-carotene than carrots. Vitamin C can help remove waste from your body, while beta-carotene improves liver performance.

26. Grapefruit: Grapefruits can prevent weight gain, treat diabetes, lower cholesterol, fight cancer, heal stomach ulcers, reduce gum disease and even keep stroke and metabolic syndrome at bay. Grapefruits can treat disease as well as pharmaceuticals without the side effects. The rich pink and red colors of grapefruit are due to lycopene, a carotenoid phytonutrient. Among the common dietary carotenoids, lycopene has the highest capacity to help fight oxygen free radicals, which are compounds that can damage cells. The big takeaway on grapefruit is that it gets your liver fired up and ready for action, while infusing the rest of your organs with nutrient-laden fruit juice.

27. Green Tea: Green tea is often thought of as a great addition to any detox program because of its high antioxidant value. It is the least processed tea and thus provides the most antioxidant polyphenols, notably a catechin called epigallocatechin-3-gallate (EGCG), which is believed to be responsible for most of the health benefits linked to green tea. According to 17 clinical trials, green tea is linked with significantly lower blood sugar.

28. Hemp: Hemp might just be one of nature's most perfect foods since it is full of antioxidants like Vitamins E and C, as well as chlorophyll which is wonderful for cleansing the body from toxins of all kinds, including heavy metals. The soluble and insoluble fiber in hemp can also keep the digestive tract clean and therefore, reduce the toxic burden on other internal organs. Hemp could free us from oil, prevent deforestation, cure cancer and its environmentally beneficial.

29. Kale: Kale is now recognized as providing comprehensive support for the body's detoxification system. New research has shown that the ITCs made from kale's glucosinolates can help regulate detox at a genetic level. This vegetable is so good for you that it is often recommended to patients that are following a doctor recommended diet when fighting kidney disease. It's packed with so many antioxidants and has anti-inflammatory properties as well, not to mention all of the vitamins and minerals it contains. Leafy greens are likely the number one food you can eat to regularly improve your health. They're filled with fiber along with crucial vitamins, minerals, and plant-based phytochemicals that may help protect you from almost every disease known.

26. Lemongrass: This is an herb that is used in Thailand and other parts of the world as a natural way to cleanse several organs at once. It not only helps the liver but also the kidneys, the bladder, and the entire digestive tract. Benefits of using it in your cooking, or drinking it as a tea include a better complexion, better circulation, and better digestion. It is most often used as a tea in the world of detoxing, and there are several recipes you can try until you find one that suits your tastes best.

30. Lemons: This wonderful fruit stimulates the release of enzymes and helps convert toxins into a water-soluble form that can be easily excreted from the body. In addition, they contain high amounts of vitamin C, a vitamin needed by the body to make glutathione. Glutathione helps ensure that phase 2 liver detoxification keeps pace with phase 1, thereby reducing the likelihood of negative effects from environmental chemicals. Drinking lemon water, which is alkaline-forming, first thing in the morning will help to balance out the acidity of foods we've consumed. They also have an incredible effect in detoxing the liver. Fresh lemon juice contains more than 20 anti-cancer compounds and helps balance the body's pH levels.

31. Olive Oil: Some liver cleanses out there call for olive oil mixed with fruit juice in order to trigger your liver to expunge its gallstones. But aside from that olive oil should be your go-to oil when you're trying to detox the body. That's because it has a lot of healthy properties and makes for a better choice of fat than most of your other options. Just be sure not to cook with it at high heat. Use it as a salad dress to help things like dark leafy greens go down. Your best choice is always ice-pressed olive oil, but if you can find a very high quality cold-pressed olive oil, although not as nutritious, it will suffice provided the quality is high and not adulterated.

32. Onions: This ubiquitous kitchen staple is as healthy as it is tasty. It's brimming with sulfur-containing amino acids, which efficiently detox the liver. Raw onions deliver the most health benefits. Even a small amount of "overpeeling" can result in unwanted loss of flavonoids. For example, a red onion can lose about 20% of its quercetin and almost 75% of its anthocyanins if it is "overpeeled". Onions will soak up arsenic, cadmium, lead, mercury and tin in food containers. The total polyphenol content of onion is not only higher than its fellow allium vegetables, garlic and leeks, but also higher than tomatoes, carrots, and red bell pepper. Onions have been shown

to inhibit the activity of macrophages, specialized white blood cells that play a key role in our body's immune defense system, and one of their defense activities involves the triggering of large-scale inflammatory responses.

33. **Parsley:** Those prettygreen leaves don't just make your plate look great. Parsley boasts plenty of beta-carotene and vitamins A, C and K to protect your kidneys and bladder. Diuretic herbs such as parsley prevent problems such as kidney stones and bladder infections and keep our body's plumbing running smoothly by causing it to produce more urine. They also relieve bloating during menstruation. The flavonoids in parsley—especially luteolin—have been shown to function as antioxidants that combine with highly reactive oxygen-containing molecules (called oxygen radicals) and help prevent oxygen-based damage to cells. In addition, extracts from parsley have been used in animal studies to help increase the antioxidant capacity of the blood.

34. **Pineapples:** This tropical delight contains bromelain, a digestive enzyme that helps cleanse your colon and improve digestion. Excessive inflammation, excessive coagulation of the blood, and certain types of tumor growth may all be reduced by bromelain. Two molecules isolated from an extract of crushed pineapple stems have even shown promise in fighting cancer growth.

35. **Seaweed:** Seaweed may be the most underrated vegetable in the Western world. Studies at McGill University in Montreal showed that seaweeds bind to radioactive waste in the body so it can be removed. Radioactive waste can find its way into the body through some medical tests or through food that has been grown where water or soil is contaminated. Seaweed also binds to heavy metals to help eliminate them from the body. In addition, it is a powerhouse of minerals and trace minerals. Seaweed extracts can help you lose weight, mostly body fat.

36. **Sesame Seeds:** Sesame seeds' phytosterols have beneficial effects which are so dramatic that they have been extracted from many foods and added to processed foods, such as "butter"-replacement spreads, which are then touted as cholesterol-lowering "foods." But why settle for an imitation "butter" when Mother Nature's nuts and seeds are a naturally rich source of phytosterols—and cardio-protective fiber, minerals and healthy fats as well? Sesame seeds contain minerals important in a number of anti-inflammatory and antioxidant enzyme systems.

37. **Turmeric:** Curcumin is the active ingredient in the spice turmeric, which gives it its yellow color. The rate at which your detox pathways function depends on your genes, your age, lifestyle and a good supply of nutrients involved in the detox process. Curcumin is used a lot in Ayurvedic Medicine to treat liver and digestive disorders. Turmeric has specifically been studied in relation to the positive effect that it has on the liver. As a high antioxidant spice, turmeric protects the body and prevents disease and prevents disease more effectively than drug based treatments and without side effects.

38. **Watercress:** Give your liver a big boost with cleansing action of watercress. If you're into making smoothies for your detoxing this is a great one to blend up and drink down. This helps to release enzymes in the liver that clean it out and help rid it of toxic buildup. Eating watercress each day helps prevent breast cancer.

39. **Wheatgrass:** Wheatgrass restores alkalinity to the blood. The juice's abundance of alkaline minerals helps reduce over-acidity in the blood and thus also is a powerful detoxifier, and

liver protector. It increases red blood-cell count and lowers blood pressure. It also cleanses the organs and gastrointestinal tract of debris. Wheatgrass stimulates the metabolism and the body's enzyme systems by enriching the blood. It also aids in reducing blood pressure by dilating the blood pathways throughout the body. Pound for pound, wheatgrass is more than twenty times denser nutrients than other choice vegetables. Nutritionally, wheatgrass is a complete food that contains 98 of the 102 earth elements. For a full body detox to reduce acidity in the body with wheat grass, organic juices, bentonite clay, celery, cilantro, and fruits and vegetables. Ginko biloba, cayenne pepper, and turmeric help. Vitamin D is similar to 'sun in a bottle', an immune booster, and vitamin of the future. Humans should consume baking soda and lemon juice in their body often to alkalize themselves.

Apple Cider Vinegar is highly beneficial. Hypothyroidism occurs from iodine-deficiency and can be combated and cured with Iodine. *IODINE* is found in organic homegrown garcinia cambogia, neem, spirulina, algae, kelp, seaweed, and chlorella. Coconut oil can be rubbed on the thyroid and pineal gland frequently.

***Diatomaceous Clay* removes heavy metal toxins as well including radiation. You can eat it and bathing in it is very helpful as well. These foods will assist in boosting your metabolism, optimizing digestion, while allowing you to lose weight and fortify your immune system.**

Appendix II

United States Patent and Trademark Office

Geoengineering Related Patents For the Past 100 Years!

An Extensive List of Patents on weather modification **1920 to 2012** <http://www.geoengineeringwatch.org/links-to-geoengineering-patents/>

- 1338343 – April 27, 1920 – Process And Apparatus For The Production of Intense Artificial Clouds, Fogs, or Mists
- 1619183 – March 1, 1927 – Process of Producing Smoke Clouds From Moving Aircraft
- 1631753 – June 7, 1927 – Electric Heater – Referenced in 3990987
- 1665267 – April 10, 1928 – Process of Producing Artificial Fogs
- 1892132 – December 27, 1932 – Atomizing Attachment For Airplane Engine Exhausts
- 1928963 – October 3, 1933 – Electrical System And Method
- 1957075 – May 1, 1934 – Airplane Spray Equipment
- 2097581 – November 2, 1937 – Electric Stream Generator – Referenced in 3990987
- 2409201 – October 15, 1946 – Smoke Producing Mixture
- 2476171 – July 18, 1945 – Smoke Screen Generator
- 2480967 – September 6, 1949 – Aerial Discharge Device
- 2550324 – April 24, 1951 – Process For Controlling Weather
- 2582678 – June 15, 1952 – Material Disseminating Apparatus For Airplanes
- 2591988 – April 8, 1952 – Production of TiO₂ Pigments – Referenced in 3899144
- 2614083 – October 14, 1952 – Metal Chloride Screening Smoke Mixture
- 2633455 – March 31, 1953 – Smoke Generator
- 2688069 – August 31, 1954 – Steam Generator – Referenced in 3990987
- 2721495 – October 25, 1955 – Method And Apparatus For Detecting Minute Crystal Forming Particles Suspended in a Gaseous Atmosphere
- 2730402 – January 10, 1956 – Controllable Dispersal Device
- 2801322 – July 30, 1957 – Decomposition Chamber for Monopropellant Fuel – Referenced in 3990987
- 2881335 – April 7, 1959 – Generation of Electrical Fields
- 2908442 – October 13, 1959 – Method For Dispersing Natural Atmospheric Fogs And Clouds
- 2986360 – May 30, 1962 – Aerial Insecticide Dusting Device
- 2963975 – December 13, 1960 – Cloud Seeding Carbon Dioxide Bullet
- 3126155 – March 24, 1964 – Silver Iodide Cloud Seeding Generator – Referenced in 3990987
- 3127107 – March 31, 1964 – Generation of Ice-Nucleating Crystals
- 3131131 – April 28, 1964 – Electrostatic Mixing in Microbial Conversions
- 3174150 – March 16, 1965 – Self-Focusing Antenna System

- 3234357 – February 8, 1966 – Electrically Heated Smoke Producing Device
3274035 – September 20, 1966 – Metallic Composition For Production of Hygroscopic Smoke
3300721 – January 24, 1967 – Means For Communication Through a Layer of Ionized Gases
3313487 – April 11, 1967 – Cloud Seeding Apparatus
3338476 – August 29, 1967 – Heating Device For Use With Aerosol Containers – Referenced in 3990987
3410489 – November 12, 1968 – Automatically Adjustable Airfoil Spray System With Pump
3429507 – February 25, 1969 – Rainmaker
3432208 – November 7, 1967 – Fluidized Particle Dispenser
3441214 – April 29, 1969 – Method And Apparatus For Seeding Clouds
3445844 – May 20, 1969 – Trapped Electromagnetic Radiation Communications System
3456880 – July 22, 1969 – Method Of Producing Precipitation From The Atmosphere
3518670 June 30, 1970 – Artificial Ion Cloud
3534906 – October 20, 1970 – Control of Atmospheric Particles
3545677 – December 8, 1970 – Method of Cloud Seeding
3564253 – February 16, 1971 – System And Method For Irradiation Of Planet Surface Areas
3587966 – June 28, 1971 – Freezing Nucleation
3601312 – August 24, 1971 – Methods of Increasing The Likelihood of Precipitation [sic] By The Artificial Introduction Of Sea Water Vapor Into The Atmosphere Winward Of An Air Lift Region
3608810 – September 28, 1971 – Methods of Treating Atmospheric Conditions
3608820 – September 20, 1971 – Treatment of Atmospheric Conditions by Intermittent Dispensing of Materials Therein
3613992 – October 19, 1971 – Weather Modification Method
3630950 – December 28, 1971 – Combustible Compositions For Generating Aerosols, Particularly Suitable For Cloud Modification And Weather Control And Aerosolization Process
USRE29142 – This patent is a reissue of patent US3630950 – Combustible compositions for generating aerosols, particularly suitable for cloud modification and weather control and aerosolization process
3659785 – December 8, 1971 – Weather Modification Utilizing Microencapsulated Material
3666176 – March 3, 1972 – Solar Temperature Inversion Device
3677840 – July 18, 1972 – Pyrotechnics Comprising Oxide of Silver For Weather Modification Use
3722183 – March 27, 1973 – Device For Clearing Impurities From The Atmosphere
3769107 – October 30, 1973 – Pyrotechnic Composition For Generating Lead Based Smoke
3784099 – January 8, 1974 – Air Pollution Control Method
3785557 – January 15, 1974 – Cloud Seeding System
3795626 – March 5, 1974 – Weather Modification Process
3808595 – April 30, 1974 – Chaff Dispensing System
3813875 – June 4, 1974 – Rocket Having Barium Release System to Create Ion Clouds In The Upper Atmosphere [sic]
3835059 – September 10, 1974 – Methods of Generating Ice Nuclei Smoke Particles For Weather Modification And Apparatus Therefore

- 3835293 - September 10, 1974 - Electrical Heating Aparatus [sic] For Generating Super Heated Vapors
- 3877642 - April 15, 1975 - Freezing Nucleant
- 3882393 - May 6, 1975 - Communications System Utilizing Modulation of The Characteristic Polarization of The Ionosphere
- 3896993 - July 29, 1975 - Process For Local Modification of Fog And Clouds For Triggering Their Precipitation And For Hindering The Development of Hail Producing Clouds
- 3899129 - August 12, 1975 - Apparatus for generating ice nuclei smoke particles for weather modification
- 3899144 - August 12, 1975 - Powder contrail generation
- 3940059 - February 24, 1976 - Method For Fog Dispersion
- 3940060 - February 24, 1976 - Vortex Ring Generator
- 3990987 - November 9, 1976 - Smoke generator
- 3992628 - November 16, 1976 - Countermeasure system for laser radiation
- 3994437 - November 30, 1976 - Broadcast dissemination of trace quantities of biologically active chemicals
- 4042196 - August 16, 1977 - Method and apparatus for triggering a substantial change in earth characteristics and measuring earth changes
- RE29,142 - February 22, 1977 - Reissue of: 03630950 - Combustible compositions for generating aerosols, particularly suitable for cloud modification and weather control and aerosolization process
- 4035726 - July 12, 1977 - Method of controlling and/or improving high-latitude and other communications or radio wave surveillance systems by partial control of radio wave et al
- 4096005 - June 20, 1978 - Pyrotechnic Cloud Seeding Composition
- 4129252 - December 12, 1978 - Method and apparatus for production of seeding materials
- 4141274 - February 27, 1979 - Weather modification automatic cartridge dispenser
- 4167008 - September 4, 1979 - Fluid bed chaff dispenser
- 4347284 - August 31, 1982 - White cover sheet material capable of reflecting ultraviolet rays
- 4362271 - December 7, 1982 - Procedure for the artificial modification of atmospheric precipitation as well as compounds with a dimethyl sulfoxide base for use in carrying out said procedure
- 4402480 - September 6, 1983 - Atmosphere modification satellite
- 4412654 - November 1, 1983 - Laminar microjet atomizer and method of aerial spraying of liquids
- 4415265 - November 15, 1983 - Method and apparatus for aerosol particle absorption spectroscopy
- 4470544 - September 11, 1984 - Method of and Means for weather modification
- 4475927 - October 9, 1984 - Bipolar Fog Abatement System
- 4600147 - July 15, 1986 - Liquid propane generator for cloud seeding apparatus
- 4633714 - January 6, 1987 - Aerosol particle charge and size analyzer
- 4643355 - February 17, 1987 - Method and apparatus for modification of climatic conditions
- 4653690 - March 31, 1987 - Method of producing cumulus clouds
- 4684063 - August 4, 1987 - Particulates generation and removal

- 4686605 – August 11, 1987 – Method and apparatus for altering a region in the earth's atmosphere, ionosphere, and/or magnetosphere
- 4704942 – November 10, 1987 – Charged Aerosol
- 4712155 – December 8, 1987 – Method and apparatus for creating an artificial electron cyclotron heating region of plasma
- 4744919 – May 17, 1988 – Method of dispersing particulate aerosol tracer
- 4766725 – August 30, 1988 – Method of suppressing formation of contrails and solution therefor
- 4829838 – May 16, 1989 – Method and apparatus for the measurement of the size of particles entrained in a gas
- 4836086 – June 6, 1989 – Apparatus and method for the mixing and diffusion of warm and cold air for dissolving fog
- 4873928 – October 17, 1989 – Nuclear-sized explosions without radiation
- 4948257 – August 14, 1990 – Laser optical measuring device and method for stabilizing fringe pattern spacing
- 1338343 – August 14, 1990 – Process and Apparatus for the production of intense artificial Fog
- 4999637 – March 12, 1991 – Creation of artificial ionization clouds above the earth
- 5003186 – March 26, 1991 – Stratospheric Welsbach seeding for reduction of global warming
- 5005355 – April 9, 1991 – Method of suppressing formation of contrails and solution therefor
- 5038664 – August 13, 1991 – Method for producing a shell of relativistic particles at an altitude above the earths [sic] surface
- 5041760 – August 20, 1991 – Method and apparatus for generating and utilizing a compound plasma configuration
- 5041834 – August 20, 1991 – Artificial ionospheric mirror composed of a plasma layer which can be tilted
- 5056357 – October 15, 1991- Acoustic method for measuring properties of a mobile medium
- 5059909 – October 22, 1991 – Determination of particle size and electrical charge
- 5104069 – April 14, 1992 – Apparatus and method for ejecting matter from an aircraft
- 5110502 – May 5, 1992 – Method of suppressing formation of contrails and solution therefor
- 5156802 – October 20, 1992 – Inspection of fuel particles with acoustics
- 5174498 – December 29, 1992 – Cloud Seeding
- 5148173 – September 15, 1992 – Millimeter wave screening cloud and method
- 5245290 – September 14, 1993 – Device for determining the size and charge of colloidal particles by measuring electroacoustic effect
- 5286979 – February 15, 1994 – Process for absorbing ultraviolet radiation using dispersed melanin
- 5296910 – March 22, 1994 – Method and apparatus for particle analysis
- 5327222 – July 5, 1994 – Displacement information detecting apparatus
- 5357865 – October 25, 1994 – Method of cloud seeding
- 5360162 – November 1, 1994 – Method and composition for precipitation of atmospheric water
- 5383024 – January 17, 1995 – Optical wet steam monitor
- 5425413 – June 20, 1995 – Method to hinder the formation and to break-up overhead atmospheric inversions, enhance ground level air circulation and improve urban air quality
- 5434667 – July 18, 1995 – Characterization of particles by modulated dynamic light scattering

- 5441200 - August 15, 1995 - Tropical cyclone disruption
- 5486900 - January 23, 1996 - Measuring device for amount of charge of toner and image forming apparatus having the measuring device
- 5556029 - September 17, 1996 - Method of hydrometeor dissipation (clouds)
- 5628455 - May 13, 1997 - Method and apparatus for modification of supercooled fog
- 5631414 - May 20, 1997 - Method and device for remote diagnostics of ocean-atmosphere system state
- 5639441 - June 17, 1997 - Methods for fine particle formation
- 5762298 - June 9, 1998 - Use of artificial satellites in earth orbits adaptively to modify the effect that solar radiation would otherwise have on earth's weather
- 5912396 - June 15, 1999 - System and method for remediation of selected atmospheric conditions
- 5922976 - July 13, 1999 - Method of measuring aerosol particles using automated mobility-classified aerosol detector
- 5949001 - September 7, 1999 - Method for aerodynamic particle size analysis
- 5984239 - November 16, 1999 - Weather modification by artificial satellite
- 6034073 - March 7, 2000 - Solvent detergent emulsions having antiviral activity
- 6045089 - April 4, 2000 - Solar-powered airplane
- 6056203 - May 2, 2000 - Method and apparatus for modifying supercooled clouds
- 6110590 - August 29, 2000 - Synthetically spun silk nanofibers and a process for making the same
- 6263744 - July 24, 2001 - Automated mobility-classified-aerosol detector
- 6281972 - August 28, 2001 - Method and apparatus for measuring particle-size distribution
- 6315213 - November 13, 2001 - Method of modifying weather
- 6382526 - May 7, 2002 - Process and apparatus for the production of nanofibers
- 6408704 - June 25, 2002 - Aerodynamic particle size analysis method and apparatus
- 6412416 - July 2, 2002 - Propellant-based aerosol generation devices and method
- 6520425 - February 18, 2003 - Process and apparatus for the production of nanofibers
- 6539812 - April 1, 2003 - System for measuring the flow-rate of a gas by means of ultrasound

- 6569393 - May 27, 2003 - Method and device for cleaning the atmosphere

Appendix III

Secret Societies and Famous Members

SECRET SOCIETIES WHO RUN the WORLD

It is simply incredible how the so few, and very, very powerful, have kept secret their affiliations to so many secret societies from public knowledge and discourse for not only decades, but centuries. This is only a partial list of the true powers behind the power we see on social media today. And all of these secret societies answer in one way or another to the blacked robed Jesuits and their Knights of Malta military henchmen.

- * The Council of 13
- * The Council of 33
- * Secret Chiefs / Great White Lodge / Great White Brotherhood
- * Order of the Quest
- * Mothers of Darkness
- * Moriah Conquering Wind

Jesuits in the White House Now and Then

45th US President Donald Trump Administration and Family

Donald John Trump, Jr. – Alma mater: University of Pennsylvania

Ivanka Marie Trump – Alma mater: University of Pennsylvania

Eric Frederic Trump – Alma mater: Georgetown University; member of “Business Society and Public Policy Initiative Board of Advisors”.

Mike Pence, Vice-President - Georgetown University in 1992. He attends the Vatican’s “Red Mass” and is a recipient of the Roman Catholic “John Carroll Award.”

Mike Pompeo, Director of CIA - Pompeo; his wife, Susan; and their son, Nicholas, reportedly attend Eastminster Presbyterian Church, where he serves as a deacon and has taught the fifth-grade Sunday school class.

In an interview for a French news documentary, "Goldman Sachs: The Bank That Runs The World," Bannon compared joining the Wall Street bank to joining the Roman Catholic religious order of the Jesuits:

INTERVIEWER: What did Goldman Sachs represent for you?

STEVE BANNON: Goldman Sachs represented excellence and meritocracy. It didn't matter where you came from, it didn't matter what school you went to, what your religion was or what was your ethnicity. It just mattered how hard you worked, how smart you were, and how good a banker you were for your clients. **It was really like joining the Jesuits.** This seems antiquated today, it was before the financialization, it was before all these quants and mathematicians really came to Wall Street.

Steven Bannon, Chief of Staff - Master's Degree in national security studies at Georgetown University; Harvard Business School; Senior Investment Banker, Goldman Sachs NYC.

Mike Pompeo, Director of CIA - Pompeo; his wife, Susan; and their son, Nicholas, reportedly attend Eastminster Presbyterian Church, where he serves as a deacon and has taught the fifth-grade Sunday school class.

Betsy DeVos, Secretary of Education. Sister of Erik Prince, founder of Blackwater/ Academi/ Xe private mercenary army. Graduated from Calvin College and attending Mars Hill Bible Church in Grand Rapids, Michigan.

Jeff Sessions, US Attorney General, Huntingdon College in Montgomery, affiliated with the United Methodist Church, active in his family's church, Ashland Place United Methodist Church in Mobile, where he's served as a lay leader, Sunday school teacher and chairman of its administrative board. He also has been selected as a delegate to the annual Alabama United Methodist Conference.

Sean Spicer, President Speech Writer - He has been the Republican National Committee's communications director since 2011 and a chief strategist since 2015. He also worked as a senior communications adviser for Trump during the transition. Spicer graduated in 1989 from Portsmouth Abbey School, a Benedictine boarding and day school in Portsmouth, Rhode Island, before going on to graduate from Connecticut College and receive a master's degree in national security and strategic studies from the Naval War College in Newport, Rhode Island.

Wilbur Ross, Secretary of Commerce - Attended Jesuit Xavier Catholic School. Senior Director of Rothschild Inc.

Andrew Bremberg - Director of the White House Domestic Policy Council; Attended Franciscan University of Steubenville.

Tom Price, Head the Department of Health and Human Services Price is a Presbyterian who attended Emory University, affiliated with the United Methodist Church. In Congress, Price's legislation and voting record reflect an alignment with conservative Christianity.

Reince Priebus , GOP Chairman - Priebus has worked with Archbishop Timothy Dolan, the Catholic Archbishop of New York, to help change both the Republican party and the face of

the Church to focus on more serious topics such as abortion, pre-marital sex, homosexuality, same-sex marriage, birth control, stem cells and the ordination of women.

David Malpass - Jesuit-trained from Georgetown, Vice President of the Council for National Policy, leading appointment selections for positions involving economic issues

Keith Kellogg - trained by Jesuit at Santa Clara University, leading appointment selections for positions involving national defense issues

Michael Catanzaro - trained by Jesuits at Fordham University and St. Ignatius High School, leading the policy implementation team for energy independence

Andrew Bremberg - graduate of Catholic University of America Executive Legal Action Lead

James Carafano - Jesuit-trained from Georgetown University, reported to be the primary aide to the State Department of Trump administration transition team

Ed Feulner - Roman Catholic former President and founder of Heritage Foundation; Jesuit-trained from Regis and Georgetown Universities

Ken Blackwell - Jesuit-trained from Xavier University, leading appointment selections for positions involving domestic issues.

Boris Epshteyn - Trump's foremost spokesman; Jesuit-trained from Georgetown.

"Between 1555 and 1931 the Society of Jesus [i.e., the Jesuit Order] was expelled from at least 83 countries, city states and cities, for engaging in political intrigue and subversion plots against the welfare of the State, according to the records of a Jesuit priest of repute [i.e., Thomas J. Campbell]. Practically every instance of expulsion was for political intrigue, political infiltration, political subversion, and inciting to political insurrection." (1987) J.E.C. Shepherd (Canadian historian)

The Military Generals in the Trump Administration

General James Mattis, Secretary of Defense - Mattis popularized the 1st Marine Division's motto "no better friend, no worse enemy", a paraphrase of the famous self-made epitaph for the Roman dictator Lucius Cornelius Sulla,[25] in his open letter to all men within the division for their return to Iraq.

General John Kelly, Department of Homeland Security - Boston native raised in an Irish-Catholic family, Kelly served in the Marines and led the invasion into Iraq before leading up the U.S. Southern Command. Previously he ran Guantanamo Bay prison.

General Vincent Viola, Secretary of Army - nicknamed the "warrior monk". a businessman who founded a high-frequency trading firm, Virtu Financial, and is also owner of the Florida Panthers. He has deep ties to Fordham University, where, in 2009, he donated \$2 million to endow a chair named after Jesuit Cardinal Avery Dulles. "In all of those roles, he has done much to advance Fordham's Jesuit, Catholic mission and strategic priorities, and we are deeply in his debt," said Jesuit Father Joseph McShane, the president of Fordham.

44th President Barack Obama's Administration

Joseph Biden, Vice-President, St. Joseph's University

Dan Pfeiffer, Deputy Communications Director, St. Josephs University.

John Brennan, CIA Director, Jesuit Fordham University

Robert Cardillo, Director of National Intelligence, Georgetown

Tom Donilon, Deputy National Secretary, Catholic University of America
Rodney Snider, Sr. Director for Intelligence Program, Georgetown University.
Robert Gates, Secretary of Defense, Georgetown University
Jacob Lew, Office of Management and Budget Director, Georgetown University
William Daley, White House Chief of Staff, Loyola University Chicago
General James L. Jones, National Security Advisor, Georgetown University.
General David Petraeus, Southern Commander of Iraq Invasion, Georgetown University
General John Allen, Deputy Commander of US Central Command, Georgetown University.

Just a Few in Congress/Governors/Mayors/State Departments

Bill Clinton, 42nd President, Georgetown University
Chris Christie, Governor of New Jersey, "I'm a Catholic, but I've used birth control, and not just the rhythm method," Christie declared. Christie's wife, who grew up in a large Catholic family, taught religious courses at their home parish, St. Joseph Church in Mendham, New Jersey. His children attend Catholic school.
Newt Gingrich, Senator, member of Council on Foreign Relations Mr. Gingrich decided to become a Roman Catholic after having been born a Lutheran and joining the Southern Baptist Church in college. In 2009, he was baptized in the same Catholic parish church on Capitol Hill where Senator Robert F. Kennedy once attended noonday Mass and sometimes assisted the priest as an altar server.
Rudy Giuliani, NY Mayor, 9/11 coadjutor, Knight of Malta. He was raised a Roman Catholic. He attended the local Catholic school, St. Anne's. Later, he commuted back to Brooklyn to attend Bishop Loughlin Memorial High School, graduating in 1961.
Janet Napolitano, Secretary of Homeland Security (Obama Administration) and former Governor of Arizona; President of University of California Regents. Technology school of the Jesuits, Santa Clara University
Jerry Brown, Former and current (2011) Governor of California; former Mayor of Oakland, California. Santa Clara University
Gavin Newsom, Lt. Governor of California, Mayor of San Francisco, Santa Clara University.
Leon Panetta, CIA Director, Chief of Staff to Bill Clinton, Fordham University.
William Casey, CIA Director, Fordham University.
Dwight D. Eisenhower, US President, Fordham University

Biography

James (Jamie) Lee, resides in the county of Mendocino in Northern California growing biodynamic and organic food at his 100-yr. old farm that he stewards for future generations.

He graduated from the school of business at San Diego State University as well as attended the Green MBA program at New College in Santa Rosa, California.

He has had over 25 years' experience working on Wall Street beginning working for the investment banking firms, Furman, Selz, Inc. in New York City as an Institutional Sales Trader. He then moved back to San Francisco, California to work for Robertson, Colman, Stephens Investment Bank as a VP of Institutional Sales. In 1991, he founded a small investment/research boutique, JWL Investments, before walking away from Wall Street in 2007 to become a Truth Activist to try and help wake the world up to what he learned was going to be no less than the enslavement of all humanity through vaccine inoculations.

He spends most of his days now analyzing, investigating and exploring the hidden occult world behind the power bases we see in our government institutions today that few are even aware of, but should be made known to all.

His work has been published on many alternative news websites including Waking Times, Activist Post, Philosophers-Stone, Reddit, Beforeitsnews.com, David Icke, StoptheCrime.net, ElanaFreeland.com, Rense.com, Natural News, Alex Jones, Sage of Quay and 2015 Most Censored Stories as well as appeared on the internationally syndicated evening news show, Breaking the Set with Abby Martin in November of 2014. He was on the show because he helped spearhead historical legislation that he helped get passed in Mendocino County, California in November of 2014. The first ever laws passed in the country declared local rights of self-governance and community determination preempting state, federal and international law.
